Prabhavit Gupta

Python Engineer: LangGraph Agent Orchestration, HITL Workflows & State Machines

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI solutions and Python engineer with hands-on experience building stateful AI agent workflows, LangGraph graph architectures, and human-in-the-loop (HITL) validation pipelines. At FlowSpace, engineered autonomous multi-step document and content processing agents featuring automated fallbacks, checkpointing, and human escalation gates for low-confidence decisions (900+ production assets handled). Daily practitioner using LangGraph, Python asyncio, Supabase/PostgreSQL backends, and Claude Code to build resilient, production-ready agent execution graphs. Based in the EU (Venice, Italy) with unrestricted European work authorization; available immediately.

Experience

FlowSpace.co • *Lead Developer (Full-time, Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review. 900+ listings drafted.
- Streamlined customer support with AI agents that answer queries against live platform data and escalate to a person on low confidence.
- Integrated the OfficeRnD and Nexudus APIs for automated bookings, and built CRM lead-capture integration and GTM automations (sales funnel, lead enrichment, outbound) with n8n.
- Led the migration off a legacy stack to a coded Next.js and Laravel product: mapped the data model, chose the migration path per entity (API or CSV) and drove the cutover. Scaled the platform from 2,000 to 4,500+ users.
- Documented product and business logic with the developer team, coordinated between the internal team and an external agency, and built a commute-time calculator tool for companies.
- *Tools: Claude Code, n8n, Playwright, Postman, Laravel, TypeScript, Supabase, GitHub, Jira, ClickUp, Miro, Google Analytics, Microsoft Clarity*

Urlink • *Project Manager & AI-Assisted Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain

- Built automated workflows and structured customer-facing demos with AI agents for client onboarding and document ingestion.
- Managed project delivery end to end: mapped stakeholder requirements, built proof-of-concept prototypes, coordinated testing, and handed over documentation to client teams.
- *Tools: Claude Code, Python, APIs, Postman, Supabase*

Freelance • *Full-Stack AI & Automation Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Built web scrapers, data enrichment pipelines, and custom API integrations for clients across Europe.
- Developed internal tools with modern frontend frameworks and backend scripts, automating repetitive manual data entry.
- *Tools: TypeScript, Python, n8n, Supabase, REST APIs*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands

- Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, debugged features and implemented Google Ads 4.
- *Tools: Figma, Sendgrid, ChatGPT*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** European Long Term Residence Permit (Italy), no sponsorship needed in the EU. Available immediately.
- **Languages:** Hindi (native), English (professional), Italian (beginner).

Core Skills

- **LangGraph & Agent Orchestration:** Stateful graph workflows, nodes, edges, state transitions, Postgres checkpointers, memory management, human-in-the-loop (HITL) review gates, retry & fallback handling
- **Python & Backend Architecture:** Python (asyncio), REST/GraphQL APIs, FastAPI, PostgreSQL, Supabase, Redis caching, structured data extraction, schema validation
- **Observability & Tooling:** OpenTelemetry, LangSmith/trace inspection, Claude and OpenAI APIs, Claude Code, Cursor, Git/GitHub, Playwright test automation
- **Distributed Workflows & QA:** Event-driven execution, webhook triggers, n8n orchestration, automated workflow testing, production reliability standards
