Prabhavit Gupta

Forward Deployed Engineer: Applied GenAI, Autonomous Agents & Enterprise Integrations

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (EU Permanent Resident, Relocation Ready)

Summary

Forward Deployed Engineer and Applied AI Systems Builder with 3 years of commercial experience delivering production GenAI products, autonomous multi-agent workflows, and enterprise customer integrations. Combines technical discovery, full-stack software development (Python 3, TypeScript, REST APIs), and modern AI engineering (LangGraph, RAG architectures, function calling, tool execution loops). Track record of translating complex enterprise business problems into production-grade AI solutions, owning customer lifecycles end-to-end from technical scoping to deployment and reliability monitoring. Immediately available, open to global relocation and onsite deployment.

Experience

FlowSpace.co • *Forward Deployed Engineer & Lead AI Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Partnered directly with enterprise customer stakeholders to translate mission-critical business requirements into production LLM workflows, supporting 4,500+ active enterprise users with 99.9% uptime.
- Designed and deployed high-precision RAG pipelines featuring document parsing, hybrid semantic search, metadata filtering, and reranking to eliminate factual hallucinations.
- Built autonomous multi-agent reasoning workflows using LangGraph and Python, orchestrating dynamic tool execution, function calling, and structured JSON outputs.
- Integrated enterprise relational data models in PostgreSQL with vector embedding indices (pgvector) to deliver low-latency semantic information retrieval.
- Deployed containerized backend microservices using Docker, AWS, and GCP, establishing automated evaluation harnesses to monitor model latency and accuracy drift.
- *Tools: Python 3, LangGraph, LangChain, RAG, pgvector, Azure OpenAI, AWS Bedrock, PostgreSQL, Docker, Git*

Urlink • *Solutions Architect & Integrations Engineer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated document extraction and classification pipelines connecting external partner APIs with centralized database stores.
- Led technical discovery sessions with corporate partners, aligning solution architectures with client IT governance and compliance frameworks.
- Implemented semantic chunking and structured prompt validation layers in Python, ensuring data integrity across high-volume ingestion streams.
- *Tools: Python, REST APIs, PostgreSQL, Supabase, Git, Linux*

Independent Technical Consultant • *Forward Deployed Solutions Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered custom conversational agents, AI-powered document search tools, and workflow automation microservices directly to European SMB clients.
- Implemented function calling, webhook listeners, and secure API integrations to connect LLMs with existing enterprise software stacks.
- Authored technical architecture runbooks, prompt engineering guidelines, and deployment specifications for client engineering teams.
- *Tools: Python, LangChain, OpenAI API, REST APIs, Linux, Git*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** EU permanent resident (Permesso di Soggiorno UE a Tempo Indeterminato), eligible for global relocation and work visas.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately; fully prepared for relocation to Dubai or European onsite deployment.

Core Skills

- **Applied AI & Agent Architectures:** Large Language Models (LLMs), LangGraph, LangChain, Tool / Function Calling, Multi-Agent Systems, Prompt Engineering.
- **RAG & Vector Search:** Retrieval-Augmented Generation, Semantic Search, Hybrid Search, Reranking, Vector Databases (pgvector, Chroma).
- **Customer-Facing Solution Engineering:** Technical Discovery, Requirements Gathering, Client Demonstrations, Rapid 0-to-1 Prototyping, Production Rollouts.
- **Full-Stack & Integrations:** Python 3, Node.js, TypeScript, RESTful APIs, Webhooks, PostgreSQL, Docker, Linux, Git.
- **Cloud Models & Ecosystems:** Azure OpenAI, AWS Bedrock, Google Vertex AI, Anthropic Claude, OpenAI API.
