Prabhavit Gupta

AI Deployment Engineer: Enterprise Agentic Systems & Solution Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI and automation engineer with about three years of experience building and shipping LLM agents, automated data workflows, and customer integrations. At FlowSpace I engineered customer support agents with tool use that answer against live platform data and escalate to humans on low confidence, an automated LLM ingestion pipeline with human review (900+ listings drafted), and automated multi-system integrations over REST APIs, OAuth, and webhooks. Experienced directing agentic systems and AI development tools (Claude Code, Cursor) and configuring data pipelines with TypeScript, SQL, and Python at working level. Bachelor's in Philosophy, International Studies & Economics. Italian EU long-term residence permit (permanent unrestricted right to work across the EU without sponsorship). Open to Amsterdam/hybrid, available immediately.

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review. 900+ listings drafted.
- Streamlined customer support with AI agents that answer queries against live platform data and escalate to a person on low confidence.
- Integrated the OfficeRnD and Nexudus APIs for automated bookings, and built CRM lead-capture integration and GTM automations (sales funnel, lead enrichment, outbound) with n8n.
- Led the migration off a legacy stack to a coded Next.js and Laravel product: mapped the data model, chose the migration path per entity (API or CSV) and drove the cutover. Scaled the platform from 2,000 to 4,500+ users.
- Documented product and business logic with the developer team, coordinated between the internal team and an external agency, and built a commute-time calculator tool for companies.
- *Tools: Claude Code, n8n, Playwright, Postman, Laravel, TypeScript, Supabase, GitHub, Jira, ClickUp, Miro, Google Analytics, Microsoft Clarity*

Urlink **Apr 2025 - Jul 2025**
Project Manager and AI-Assisted Developer (Freelance) *Barcelona, Spain*

- Used AI to build the platform and its logic, implemented AI-made UIs, and built automations to client requirements.
- *Tools: GitHub, Netlify, Supabase, bolt.new*

UltraStrategy.com **Dec 2024 - May 2025**
Automation Developer (Collaborator) *France*

- Built a CV-parsing tool with n8n and Eden AI (LLM data extraction) and a platform for different user profiles.
- *Tools: n8n, Eden AI*

Qomodo **2024 - Jan 2025**
AI and Low-Code Developer (Collaborator) *Milan, Italy*

- Built a dashboard for companies to manage their branches and implemented Figma designs.

Get2Germany.com **Jan 2024 - May 2024**
Lead Developer and Automation Specialist (Part-time) *Berlin, Germany*

- Integrated Google APIs for platform tracking, built the platform and optimized the database, and developed AI-based automation tools for finding courses, internships and jobs.
- *Tools: n8n, Figma, Trello, Google APIs*

Clubee.com **Sep 2023 - Aug 2024**
Low-Code Developer and Quality Assurance (Full-time, Freelance) *Foetz, Luxembourg*

- Integrated the Clubee API across the whole frontend, ran unit testing and QA on new features, and built tools for domain integration, a shop and a federation dashboard.
- *Tools: Figma, GitHub, Postman, REST APIs*

Tractionboard.co **Aug 2023 - Oct 2023**
Low-Code Developer (Internship) *Utrecht, Netherlands*

- Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, debugged features and implemented Google Ads 4.
- *Tools: Figma, Sendgrid, ChatGPT*

Education

Ca' Foscari University of Venice **Oct 2020 - Jun 2024**
Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship *Venice, Italy*

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** European Long Term Residence Permit (Italy), no sponsorship needed in the EU. Available immediately.
- **Languages:** Hindi (native), English (professional), Italian (beginner).

Core Skills

- **AI Deployment & Agentic Systems:** AI agents, tool use and function calling, prompt/context engineering, structured JSON outputs, RAG, Claude Code, Cursor, confidence evaluation and human escalation
- **Integration and Data:** REST APIs, webhooks, OAuth, data modeling, SQL, schema migration, PostgreSQL, Supabase, n8n, Postman, Google APIs
- **Engineering:** TypeScript, JavaScript, Node.js, Next.js, Python (working level), Laravel, Playwright, Git, Jira
- **Solution Delivery:** Technical discovery, business process analysis, specification writing, rapid prototyping, cross-functional collaboration, solution documentation
