Prabhavit Gupta

Software Engineer | Applied AI Systems, AI Agents, LLM Evaluation & Full-Stack Platform

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Unrestricted EU Permanent Resident | Full Remote / Berlin Open)

Summary

Applied AI Software Engineer with 3 years of commercial experience designing, building, and operating core backend and AI systems for real-time platforms. Proven track record taking products from 0 to 1: architecting high-throughput FastAPI backends, autonomous AI agent pipelines, LLM evaluation and prompt routing frameworks, and resilient PostgreSQL data layers. Skilled across the full stack with Python, TypeScript, React, Next.js, and cloud deployment on AWS and GCP. Permanent EU resident, immediately available for remote or European engagements.

Experience

FlowSpace.co • *Lead Applied AI & Systems Software Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Built and operated core backend systems and Applied AI infrastructure powering a real-time collaboration platform serving 4,500+ active users with sub-second response times.
- Engineered high-performance FastAPI microservices coordinating LLM prompt routing, intent classification, and tool-calling agent execution across diverse foundation models.
- Implemented comprehensive LLM evaluation pipelines (LangSmith, PyTest) establishing benchmark suites for factual accuracy, toxicity guardrails, and latency optimization.
- Designed and optimized PostgreSQL schemas, pgvector embeddings search, and Redis caching layers for low-latency retrieval under heavy concurrent query loads.
- Collaborated on frontend UI integration with React, Next.js, and TypeScript, delivering responsive, real-time client dashboards and monitoring tools.
- *Tools: Python, FastAPI, LLMs, AI Agents, LLM Evals, Prompt Engineering, PostgreSQL, Redis, React, Next.js, TypeScript, Docker, AWS, Git*

Urlink • *AI Backend Software Engineer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Built automated semantic ingestion and extraction workers connecting external partner APIs with relational database backends.
- Designed structured prompt engineering pipelines and validation middleware to enforce deterministic outputs from generative models.
- Deployed containerized microservices to cloud environments with automated CI/CD pipelines and health monitoring.
- *Tools: Python, FastAPI, REST APIs, PostgreSQL, Supabase, Cloud Infrastructure, Git*

Independent Technical Consultant • *Applied AI Solutions Consultant*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered custom 0-to-1 software solutions and AI automation workflows for European SMB clients, automating core operational workflows.
- Developed backend webhook workers, API connectors, and automated notification routines integrating CRM databases.
- Established automated test suites and deployment runbooks ensuring reliable system handover to client teams.
- *Tools: Python, FastAPI, OpenAI API, LangChain, Webhooks, REST APIs, PostgreSQL, Linux*

Tractionboard.co • *Full-Stack Software Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Developed full-stack features and API endpoints using JavaScript, Python, and relational database systems.
- *Tools: Python, JavaScript, REST APIs, Git*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE a Tempo Indeterminato (Italy), unrestricted work authorization across the EU. No visa sponsorship required. Open to remote or Berlin/EU relocation.
- **Languages:** English (fluent / C1 professional), Italian (working intermediate), Hindi (native).

- **Availability:** Available immediately (0 days notice) for full-time roles.

Core Skills

- **Applied AI & Agents:** LLMs (GPT-4o, Claude 3.5, LLaMA), AI Agents, Prompt Engineering, Prompt Routing, LLM Evaluation (LangSmith), Tool Calling.
- **Backend Engineering:** Python 3.12, FastAPI, Pydantic, RESTful APIs, WebSockets, Asynchronous Programming, Microservices.
- **Frontend & Full-Stack:** TypeScript, React, Next.js, Node.js, Tailwind CSS, State Management.
- **Databases & Infrastructure:** PostgreSQL, pgvector, Redis, Docker, AWS (ECS, S3, RDS), GCP, CI/CD Actions, Linux.
- **Software Rigor:** 0-to-1 Product Development, Automated Testing (PyTest, Jest), Observability, High Autonomy.
