Summary

Conversational and Agentic AI Engineer with 3 years of commercial experience designing, building, and deploying digital AI agents, voice assistants, and business workflow orchestration solutions. Hands-on expertise delivering conversational and agentic platforms (Google Dialogflow, Microsoft Copilot Studio, LangGraph, Tray.AI), integrating conversational frontends with enterprise backends via secure RESTful APIs and webhooks. Skilled in enterprise RAG implementations, multi-agent task orchestration, and LLM-driven automation. Holds Microsoft certifications in AI Agents and Copilot Studio. Permanent EU resident, immediately available for full remote engagement across Europe.

Experience

FlowSpace.co • *Lead Conversational AI & Agent Systems Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Delivered production conversational AI agents and agentic workflows combining LLMs with structured conversational platforms for 4,500+ active users.
- Integrated conversational interfaces with enterprise backend systems and customer data stores via REST APIs, webhooks, and secure authentication layers.
- Built robust enterprise RAG knowledge bases enabling accurate document retrieval, contextual reasoning, and zero hallucination responses.
- Configured automated failovers, turn-taking logic, and intent classification guardrails across voice and digital chat channels.
- Established automated evaluation and quality assurance pipelines (LangSmith, PyTest) ensuring response accuracy and latency optimization (<1.8s).
- *Tools: Conversational AI, Dialogflow, LangGraph, Copilot Studio, REST APIs, RAG, Webhooks, Python, Docker, Git*

Urlink • *AI Systems Integration Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated semantic extraction and classification workflows connecting external partner APIs with structured database systems.
- Designed conversational data ingestion assistants with structured schema validation and error-handling routines.
- Partnered with client stakeholders to translate manual customer support workflows into automated self-service agent routines.
- *Tools: REST APIs, Embeddings, PostgreSQL, Supabase, Workflow Automation, Git, Linux*

Independent Technical Consultant • *Conversational AI Solutions Consultant*
Sep 2023 - Mar 2024 • Venice, Italy

- Configured and deployed voice and chat self-service agents for European business clients using Google Dialogflow and LangChain integrations.
- Connected conversational interfaces with CRM backends, automated ticketing systems, and webhook-driven notification workers.
- Authored conversational design runbooks, prompt engineering guidelines, and deployment specifications for client teams.
- *Tools: Dialogflow, OpenAI API, LangChain, Webhooks, REST APIs, Linux, Git*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and integration workflows for SaaS client onboarding flows.
