As an AI Engineer with extensive experience building and deploying agentic workflows, I bridge complex LLM architectures with customer-facing deliverables. Having shipped production multi-agent pipelines and RAG-based systems, I excel at translating business requirements into robust software. Fluent in English and conversant in Italian, I am eager to drive custom deployments, integrate products into existing infrastructure, and scale AI solutions as a Senior Forward Deployed Engineer for Cresta in Germany.

Core Competencies

- **Agentic AI & LLMs:** Built production multi-agent systems (n8n, Claude API) for automated workflows and RAG-based customer support.
- **Forward Deployed Engineering:** Mediated between internal teams and clients to translate business requirements into technical automations and live deployments.
- **Full-Stack Integration:** Led the end-to-end migration of a live platform to Next.js and Laravel, scaling to 4,500+ users without downtime.
- **Tech Stack:** TypeScript, Python, Next.js, Node.js, SQL (Postgres), REST/GraphQL APIs, OpenAI/Claude APIs, n8n, Supabase.

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer *Mar 2024 - Aug 2026*

- **Agentic Workflows:** Built an AI agent (n8n, Claude, TypeScript) that ingests multi-format brochures to draft workspace listings with a human-in-the-loop escalation.
- **AI Support Agents:** Deployed RAG-based AI agents to answer customer queries against live platform data.
- **Platform Migration:** Led end-to-end migration from a legacy stack to Next.js and Laravel without downtime.

Urlink **Barcelona, Spain (Remote)**

Project Manager & AI-Assisted Developer *Apr 2025 - Jul 2025*

- Embedded with stakeholders to translate business needs into client-driven platform features and automations using Next.js and Supabase.

UltraStrategy **France (Remote)**

AI Automation Developer *Dec 2024 - May 2025*

- Architected a custom CV-parsing LLM data extraction pipeline using n8n and Eden AI for internal deployment.

Get2Germany **Berlin, Germany (Remote)**

Developer and Automation Specialist *Jan 2024 - May 2024*

- Engineered AI-driven workflows to automate candidate-course matching via n8n and Google APIs.

Clubee **Foetz, Luxembourg (Remote)**

Developer and QA *Sep 2023 - Aug 2024*

- Integrated internal APIs across the frontend and built shop and dashboard tools while executing unit testing.

Education and Languages

Ca' Foscari University **Venice, Italy**

BA Philosophy, International Studies and Economics *Oct 2020 - Jun 2024*

Languages: English (C2), Italian (Conversational), Hindi (Native)
