# Prabhavit Gupta

Via Zanetti 10, 30175 Venice, Italy
+39 351 610 7807 • prabhavitg@gmail.com • LinkedIn, GitHub

Technical leader and Forward Deployed Engineer with strong experience in deploying AI solutions and bridging the gap between product engineering and customer success. Proven track record in translating ambiguous customer requirements into scalable, production-ready software and custom integrations. Expertise in Python, data pipelines, API architecture, and troubleshooting live systems in high-stakes environments.

## Core Competencies

- **Customer & Technical Leadership:** Scoping technical requirements, prototyping solutions, architecture, stakeholder communication
- **Programming & Ops:** Python, Node.js, TypeScript, production debugging, cloud deployment, API integrations
- **Data & AI Solutions:** LLM orchestration, custom data pipelines, prompt engineering (Claude Code, OpenAI), PostgreSQL

## Professional Experience

**FlowSpace.co** **London, UK (Remote)**

*Lead Developer* *Mar 2024 - Aug 2026*

- Embedded directly with customer needs to build custom integrations, effectively acting as the forward deployed technical liaison.
- Architected and deployed a production AI pipeline that extracted structured data from diverse customer formats using Python and LLM APIs.
- Led the end-to-end cloud migration of a live platform, scaling active users from 2,000 to over 4,500 while troubleshooting live environment issues.
- Built repeatable backend integrations using REST webhooks to integrate products into existing CRM infrastructure.

**UltraStrategy & Urlink** **Remote**

*Technical Project Manager & AI Automation Developer* *Dec 2024 - Jul 2025*

- Engaged with external stakeholders to prototype and scope custom solutions that addressed their urgent workflow bottlenecks.
- Engineered a robust CV parsing AI pipeline and custom automation tools, ensuring technical deliverables met complex business requirements.
- Supported customer teams throughout deployment, translating feedback directly into product improvements.

**Get2Germany.com** **Berlin, Germany**

*Developer* *Jan 2024 - May 2024*

- Integrated enterprise Google APIs and developed custom Python/Node automation tools to optimize client database query workflows.

## Education

**Ca' Foscari University of Venice** **Venice, Italy**

*BA Philosophy, International Studies & Economics* *Oct 2020 - Jun 2024*
