Summary

Forward-Deployed AI Engineer with over 3 years of experience specializing in building, shipping, and scaling AI agents and automation pipelines that directly reduce manual workload and cycle time. Proven track record of sitting with users, discovering operational bottlenecks, and deploying custom AI tooling using Claude, Claude Code, and multi-step agentic workflows. Extensive hands-on experience wiring LLMs, third-party APIs (CRMs, scheduling tools), and databases into unified, production-ready solutions. Fully remote-eligible and comfortable operating in matrixed environments without an established playbook to drive end-to-end digital transformation.

Skills

- **AI & Agentic Frameworks**: LLM integration, Agentic Workflows, MCP servers, Claude / Claude Code, OpenAI APIs, n8n, Make, Eden AI, Prompt Engineering, Human-in-the-loop review
- **Languages & Frameworks**: TypeScript, Python, JavaScript, Next.js, Laravel (PHP)
- **APIs & Integrations**: REST APIs, Webhooks, CRM integrations (Salesforce, Hubspot), Microsoft 365, Google APIs, SendGrid, Booking Platforms (OfficeRnD, Nexudus)

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer (Freelance) *Mar 2024 – Present*

- **AI Listing Agent (Production)**: Designed and shipped an end-to-end human-in-the-loop agent that ingests raw formats (PDFs, sites, spreadsheets) to draft full listings via an LLM, reviewing and pushing them to a Next.js/Laravel backend. Adopted by 20+ operators, automating 1,000+ office drafts.
- **GTM & CRM Automation**: Rebuilt the sales pipeline by integrating the company CRM with external platforms, enabling automated lead capture, enrichment, and outbound routing.
- **AI Support Agents**: Engineered AI-driven support agents interacting with live platform data to automatically resolve customer queries, with intelligent human escalation, significantly reducing manual ticket resolution time.
- **API Integrations**: Mapped and executed complex, multi-step API connections (OfficeRnD, Nexudus) for automated booking synchronization.

UltraStrategy.com **France (Remote)**

AI Automation Developer (Collaborator) *Dec 2024 – May 2025*

- **Intelligent Data Extraction**: Built a custom LLM-powered CV-parsing tool mapping to varied user profiles, leveraging n8n and Eden AI.
- **Process Redesign**: Collaborated closely with non-technical stakeholders to capture existing manual extraction processes and replace them with automated, repeatable AI workflows.

Urlink **Barcelona, Spain (Remote)**

Project Manager & AI-Assisted Developer (Freelance) *Apr 2025 – Jul 2025*

- Led the rapid prototyping and delivery of a client platform using AI-assisted development (GitHub, Netlify, Supabase), streamlining client-driven automations.

Get2Germany.com **Berlin, Germany (Remote)**

Lead Developer & Automation Specialist (Part-time) *Jan 2024 – May 2024*

- Built automated candidate matching and course-finding tools via n8n and Google APIs to return hours of capacity to the advising team.

Qomodo **Milan, Italy (Remote)**

AI Developer (Collaborator) *2024 – Jan 2025*

- Developed a centralized dashboard for managing company branches, directly implementing complex Figma designs into live interfaces.
