Hiring Manager
Act Digital / Jobbol
Remote

Dear Hiring Manager,

I am writing to express my strong interest in the Desenvolvedor Full Stack .NET Angular position at Act Digital, as advertised on Jobbol (Ref: 4470945737). With a solid background in designing, developing, and maintaining end-to-end web applications, combined with my extensive experience working in fully remote environments, I am eager to contribute to your team's success.

In my current capacity as a freelance Senior Full Stack Developer, I specialize in building robust backend architectures using C# and .NET Core, paired with dynamic, responsive frontends in Angular and TypeScript. I have a proven track record of creating secure RESTful APIs, optimizing database queries, and resolving complex production issues (debugging). I thrive in collaborative settings, where I can work closely with cross-functional teams to analyze requirements and continuously improve code quality.

What draws me to Act Digital is the opportunity to work on innovative digital transformation projects on a global scale. I am comfortable managing my time effectively in a 100% remote setup, ensuring that communication remains clear and project milestones are met consistently. My background aligns perfectly with the responsibilities of this role, from supporting system integrations to developing new features from scratch.

Thank you for considering my application. I would welcome the opportunity to discuss how my technical skills in .NET and Angular, along with my proactive problem-solving approach, make me a strong fit for Act Digital. I look forward to the possibility of speaking with you soon.

Sincerely,

Prabhavit Gupta
