BaehrBots GmbH
AI Integration Engineer / Specialist
Dresden

Dear hiring team,

I am applying for the AI Integration Engineer role. I build LLM agents and API integrations that run in production. At FlowSpace I shipped support agents that answer from live platform data and escalate to a human on low confidence, a retrieval pipeline that drafts listings from source documents with human review, and booking and CRM integrations. Daily tools are Python, TypeScript, Docker, Git, the Claude and OpenAI APIs, and n8n.

I am based in Venice on an Italian EU long-term residence permit. My degree is a BA from Ca' Foscari, and my English is professional. I do not speak German. I can discuss on-site work in Dresden.

Kind regards,

Prabhavit Gupta
