Full-Stack & AI Engineer with hands-on experience building, scaling, and deploying production AI agents and web platforms. Specializing in bridging business needs with applied AI, I successfully led the migration of FlowSpace to a robust coded stack and developed agentic systems that scaled the user base to over 4,500. Strongly aligned with the Forward Deployed Engineer role at Accenture España to architect and implement reliable, scalable AI solutions directly for clients.

Core Competencies

- **Applied AI & Agentic Systems**: Built and operated production AI agents using LLMs (Claude, OpenAI), n8n, and Eden AI, featuring human-in-the-loop review and confidence-based escalation.
- **Full-Stack Engineering**: Developed and migrated scalable web applications using TypeScript, Next.js, Node.js, and Laravel.
- **Client-Facing Solution Design**: Bridged technical and business domains to capture requirements, architect solutions, and resolve complex issues directly for end-users and agencies.

Professional Experience

FlowSpace.co **London, UK (Remote)**
Lead Developer (Freelance) *Mar 2024 - Aug 2026*

- Led the end-to-end migration of a live marketplace platform from a legacy stack to a modern coded architecture (Next.js and Laravel), scaling the platform from 2,000 to over 4,500 users.
- Architected and deployed an AI listing bot using n8n, Claude, and TypeScript that processes multi-format brochures to draft workspace listings with a human-in-the-loop workflow.
- Built and maintained support AI agents that interact with live platform data, successfully implementing confidence-based escalation to human operators.

Urlink **Barcelona, Spain (Remote)**
Project Manager & AI-Assisted Developer *Apr 2025 - Jul 2025*

- Directed client requirements and led AI-assisted development of the platform's logic and client-driven automations using Next.js and Supabase.

UltraStrategy **France (Remote)**
AI Automation Developer *Dec 2024 - May 2025*

- Engineered a CV-parsing LLM pipeline leveraging Eden AI and n8n to automate data extraction.

Clubee.com **Foetz, Luxembourg (Remote)**
Developer & QA *Sep 2023 - Aug 2024*

- Integrated the Clubee API across the frontend, executing unit testing and QA for domain-integration tools.

Education & Certifications

Ca' Foscari University of Venice **Venice, Italy**
BA in Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*
Minor in Entrepreneurship.

- **Certifications**: Microsoft Copilot Studio Agent Academy, Introduction to building AI agents, Power Automate.
- **Open Source Demo**: LLM Document Parser - processes complex documents into structured JSON formats.
