Prabhavit Gupta

Forward Deployed Engineer Manager: Enterprise AI, Agentic Platforms & Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Hybrid Milan / Relocation)

Summary

Forward Deployed Engineer Manager with 3+ years of experience leading technical delivery, architecting enterprise AI platforms, and operationalizing agentic workflows directly embedded within client environments. Proven track record owning production outcomes: moving complex systems from rapid prototyping to production scale, and leading the platform migration off a legacy stack to Next.js and Laravel (scaling 2,000 to 4,500+ users with zero downtime). Deep hands-on expertise building production multi-agent systems, RAG pipelines, and automated multi-format data extraction with human-in-the-loop governance (900+ production entities drafted). Daily practitioner with Claude Code, TypeScript, Python, REST APIs, and event-driven architectures. Translates ambiguous business challenges into measurable enterprise value.

Skills

- **Forward-Deployed Leadership & Delivery:** Pod management, client technical discovery, translating ambiguous business requirements into production architectures, C-suite technical alignment, production outcome ownership (time-to-value, reliability, adoption velocity), agile sprint coordination, UAT
- **Agentic AI & Enterprise LLM Systems:** Claude Code (daily driver for rapid prototyping and test scaffolding), Anthropic Claude API, OpenAI API, Google Gemini, multi-step agent orchestration, Model Context Protocol (MCP), tool use and function calling, RAG architectures, structured JSON parsing, prompt engineering, confidence scoring, human-in-the-loop review
- **Enterprise Architecture & Integrations:** TypeScript, Python, Node.js, Next.js, Laravel (PHP), REST APIs, OpenAPI, webhooks, asynchronous queues, retry and rate-limit handling, PostgreSQL, Supabase, third-party integrations (CRM, OfficeRnD, Nexudus, Google APIs, SendGrid)
- **Platform Migration, QA & Reliability:** Legacy platform migration, data-model mapping, zero-downtime cutovers, distributed system reliability, Playwright automated testing, Postman contract testing, unit testing, logging, tracing, exception escalation, CI/CD, Docker, Git/GitHub

Experience

FlowSpace.co **Mar 2024 - Aug 2026**

Lead Developer & Forward Deployed AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Architected and shipped an AI listing ingestion pipeline (n8n, Claude API, TypeScript) orchestrating multi-step LLM tool use and structured parsing to extract data from multi-format brochures (PDF, web, spreadsheet, image) with human-in-the-loop review; 900+ listings drafted.
- Owned production outcomes across the platform, leading core system migration off a legacy stack to coded Next.js and Laravel (PostgreSQL), scaling active users from 2,000 to 4,500+ without downtime.
- Deployed customer-facing support AI agents operating against live database records, implementing confidence scoring thresholds and deterministic fallback paths that escalate ambiguous inquiries to human staff.
- Engineered bidirectional enterprise integrations with OfficeRnD and Nexudus APIs for automated bookings, handling rate limits, webhook synchronization, and automated error recovery.
- Acted as technical execution lead across internal dev teams, client stakeholders, and external agency partners to translate operational bottlenecks into robust production features.

Urlink **Apr 2025 - Jul 2025**

Project Manager & AI-Assisted Developer (Freelance) *Barcelona, Spain (remote)*

Partnered directly with client leadership on technical discovery, designed platform architecture, and delivered client-driven automations using Next.js, Supabase, and Claude Code.

UltraStrategy.com **Dec 2024 - May 2025**

AI Automation Developer (Collaborator) *France (remote)*

Engineered an automated document extraction and parsing pipeline in n8n and Eden AI, structuring unstructured data into normalized, schema-validated JSON records across multi-tier user profiles.

Get2Germany.com **Jan 2024 - May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated data collection and validation pipelines using n8n and Google APIs, streamlining database synchronization and candidate matching logic.

Clubee.com **Sep 2023 - Aug 2024**

Developer & QA (Full-time, Freelance) *Foetz, Luxembourg (remote)*

Integrated core REST APIs across frontend modules, executed QA/unit testing, and delivered administrative federation dashboards.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source parsing engine demonstrating multi-format document conversion (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Qomodo** (2024 - Jan 2025): Collaborator; built an enterprise branch management dashboard implementing Figma specifications in Milan, Italy.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to Building AI Agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: Italian EU Long Term Residence Permit (unrestricted EU work rights, no visa sponsorship needed in Italy/EU; available immediately). Venice, Italy (hybrid Milan / relocation). **Languages:** English (professional C2), Hindi (native), Italian (conversational).
