Forward Deployed Engineer and AI Agent Specialist with a strong founding mentality, bridging the gap between LLM capabilities and enterprise production environments. At FlowSpace, I scaled multi-agent architectures that orchestrate API integrations, handle structured output, and automate complex workflows. I thrive in high-velocity startup environments, building custom connectors and ensuring that AI-driven context retrieval directly translates to customer value.

Core Competencies

- **AI Agents & Orchestration:** Multi-agent workflow design, LLM tool use, structured output parsing, RAG, vector search, Claude Code, Model Context Protocol (MCP).
- **Enterprise Integration:** REST API design, webhooks, asynchronous job processing, customer CRM connectors, rate-limit handling, Docker, n8n.
- **Fullstack & Infrastructure:** Python, TypeScript, React, Next.js, Node.js, PostgreSQL, AWS, GitHub Actions CI/CD.

Professional Experience

FlowSpace.co **London, UK (Remote)**

Full-Stack & AI Engineer *Mar 2024 - Aug 2026*

- Built and scaled an AI data pipeline orchestrating multi-step LLMs with tool use, structured output parsing, and RAG to ingest diverse documents and push validated results to production.
- Designed event-driven architectures integrating customer APIs (CRMs, payment flows), handling rate limits, webhooks, and retry logic across service boundaries for maximum uptime.
- Developed RAG-backed conversational support agents deployed in production, implementing confidence scoring and human-in-the-loop fallback mechanisms.
- Demonstrated strong startup mentality by taking ownership of a legacy system migration, scaling the active user base from 2,000 to over 4,500.

Get2Germany.com **Berlin, Germany**

Developer & Automation Specialist *Jan 2024 - May 2024*

- Integrated third-party APIs and built AI-driven data extraction workflows to streamline course and job matching, optimizing underlying PostgreSQL database performance.

Clubee.com **Foetz, Luxembourg**

Developer & QA *Sep 2023 - Aug 2024*

- Spearheaded integration of the Clubee API across the frontend, building robust customer-facing federation dashboards.

Independent Projects

UltraStrategy **Freelance**

AI Automation Developer *2024 - 2025*

- Built a scalable LLM data extraction tool serving multiple user profiles, directly collaborating with stakeholders to translate requirements into deployed features.

Urlink **Freelance**

Project Manager & AI Developer *2025*

- Led the end-to-end development of a Next.js and Supabase platform, deploying client-driven automations and acting as the technical bridge to the customer.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*

Minor: Entrepreneurship. Developed a multidisciplinary approach combining technical systems with business strategy.

Work authorization: EU Long Term Residence Permit (Italy), no sponsorship needed; available immediately.
