Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

Career Summary

- Automation Test & Validation Engineer with dual degrees in Mechanical Engineering and Management Engineering (Politecnico di Milano).
- Solid foundation in automated machinery verification, PLC control logic testing (Siemens TIA Portal, Allen-Bradley/Rockwell), and commissioning within regulated environments.
- Experienced in test protocol execution (FAT/SAT, IQ/OQ), sensor signal verification (pressure, temperature, flow, voltage), and P&ID/electrical schematic interpretation.
- Proven track record in automated diagnostic scripting, system troubleshooting, and cross-functional collaboration with quality assurance and engineering teams.

Technical Skills

- **Industrial Automation & PLC** – Siemens TIA Portal (S7-1200/1500), Allen-Bradley (RSLogix 5000), Rockwell, Automation Studio, HMI/SCADA Interfaces
- **Validation & Compliance** – Test Protocol Execution, FAT/SAT, IQ/OQ Documentation, GMP Alignment, P&ID & Electrical Schematic Reading
- **Instrumentation & Diagnostics** – Sensor Verification, Temperature/Pressure Transmitters, Signal Calibration (4-20mA, 0-10V), Multimeter, Oscilloscope
- **Scripting & Systems** – Python, C++, Bash, Linux, SQL, Automated Test Frameworks, Git, Root Cause Analysis
- **Protocols & Networks** – Industrial Ethernet, Profinet, Modbus, OPC UA, REST APIs

Visa & Language

- **Language** – Italian (Conversational / Intermediate), English (Fluent / Professional), Hindi (Native)
- **Work Authorization** – European Long Term Residence Permit (No Visa Sponsorship required). Driving License (Patente B). Available for on-site travel.

Professional Experience

FlowSpace.co *Automation Test & Systems Lead*
London, UK / Remote *Mar 2024 – Ongoing*

- **Automated Testing & Systems Validation:**
  - Architected automated verification suites and continuous test harnesses for distributed process control pipelines and IoT gateways.
  - Executed structured test protocols evaluating system telemetry, signal response times, and failure-mode recovery under simulated operating loads.
  - Authored technical qualification documents, acceptance criteria reports, and debugging procedures for field commissioning engineers.
- **Quality Assurance & Continuous Improvement:**
  - Managed regression test runs and diagnostic logging, detecting and isolating synchronization anomalies across interconnected platforms.
  - Collaborated closely with cross-border development and quality teams to implement root-cause corrective actions, ensuring 99.9% uptime.
- *Tools: Python, Linux, Bash, Automated Test Frameworks, REST APIs, Git, Jira*

Urlink *Systems Automation Engineer*
Milan, Italy *Jul 2023 – Feb 2024*

- Conducted functional testing, sensor calibration, and signal integrity checks on industrial automation machinery prior to factory delivery (collaudo).
- Verified PLC I/O configurations, safety interlocks, and communication modules following engineering schematics and functional specifications.

- Formulated detailed test matrices and commissioning checklists covering mechanical, electrical, and control logic sub-assemblies.

UltraStrategy *Automation Developer*
Remote, Germany *Sep 2022 – Jun 2023*

- Built automated data collection scripts monitoring industrial machinery performance and operational throughput metrics across production sites.
- Automated routine test data extraction, transforming multi-channel sensor logs into structured compliance validation reports.

Education

Politecnico di Milano *M.Sc. in Management Engineering (Digital Business & ICT)*
Milan, Italy *2020 – 2023*

Thapar Institute of Engineering and Technology
B.E. in Mechanical Engineering
Punjab, India *2014 – 2018*
