Prabhavit Gupta

Senior Principal Forward Deployed Engineer: AI Systems, Edge Pipelines & Enterprise Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Open to Travel / Relocation)

Summary

Forward deployed engineer who embeds directly within enterprise customer environments to bridge complex customer infrastructure with production AI, custom data pipelines, and intelligent systems. Experienced in architecting end-to-end solutions, rapidly iterating from technical discovery to production-grade deployment, and creating reusable software assets. At FlowSpace, designed and shipped a multi-format AI ingestion pipeline with human-in-the-loop validation (900+ listings drafted), deployed live customer-facing support agents with confidence-based fallback, and led the platform and data migration off a legacy stack (scaling from 2,000 to 4,500+ users with zero downtime). Daily driver with Claude Code, Python, TypeScript, REST APIs, and event-driven architectures.

Skills

- **Forward Deployment & Solution Architecture:** Customer embedding, technical discovery, solution architecture, edge-case resolution, rapid prototyping, production rollout, turning bespoke client requirements into reusable technical assets, field troubleshooting, and cross-functional engineering alignment
- **AI Systems & Workflow Orchestration:** Claude Code (daily driver), Anthropic Claude API, OpenAI API, prompt engineering, Model Context Protocol (MCP), tool use and function calling, structured JSON output parsing, RAG architectures, multi-step agent orchestration, confidence scoring, guardrails, and human-in-the-loop review
- **Backend, Data Pipelines & APIs:** Python, TypeScript, Node.js, Next.js, Laravel (PHP), SQL (PostgreSQL, Supabase, MySQL), REST APIs, OpenAPI, webhooks, asynchronous queues, retry and rate-limit handling, custom ETL pipelines, third-party integrations (OfficeRnD, Nexudus, CRM platforms, Google APIs)
- **Infrastructure, Delivery & Observability:** Docker, Git/GitHub, CI/CD pipelines, automated testing (Playwright, Jest, Postman), production monitoring, logging, tracing, exception escalation, schema validation, and zero-defect data cutover

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Solutions Engineer (Full-time, Freelance) *London, UK (remote)*

- Architected and shipped an AI listing pipeline (Claude API, TypeScript, n8n) orchestrating multi-step LLM tool use and structured parsing to extract data from multi-format customer brochures (PDF, web, spreadsheet, image) with human-in-the-loop review; 900+ listings drafted.
- Engineered bidirectional enterprise integrations with customer platforms and booking systems (OfficeRnD, Nexudus) and CRM pipelines, managing rate limits, webhooks, and retry logic across service boundaries.
- Deployed customer-facing support AI agents operating against live database records, implementing confidence-scoring thresholds and automated escalation paths to human specialists.
- Led core platform migration off a legacy stack to coded Next.js and Laravel (PostgreSQL), mapping data models, resolving relational discrepancies, and scaling active users from 2,000 to 4,500+ with zero downtime.
- Partnered directly with external customer stakeholders and internal teams to translate operational bottlenecks into production features and reusable tooling.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated data collection, normalization, and validation pipelines using n8n and Google APIs, streamlining database synchronization and matching logic.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg (remote)*

Integrated core REST APIs across frontend modules, executed QA/unit testing, and delivered administrative federation dashboards for international sports organizations.

Tractionboard.co **Aug 2023 - Oct 2023**
Developer (Internship) *Utrecht, Netherlands (remote)*

Integrated OpenAI/ChatGPT and Sendgrid APIs, designed responsive frontend interfaces, and debugged production features.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine demonstrating multi-format document parsing (PDF, spreadsheet, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Urlink** (Apr 2025 - Jul 2025): Project Manager & AI-Assisted Developer; worked directly with client leadership on technical discovery, built platform logic, and delivered client-driven automations using Next.js and Supabase.

- **UltraStrategy** (Dec 2024 - May 2025): AI Automation Developer; built an LLM document extraction tool with n8n and Eden AI for multi-profile candidate data processing.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to Building AI Agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: Italian EU Long Term Residence Permit (unrestricted EU work rights, no visa sponsorship needed in EU/Ireland; available immediately). **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
