Prabhavit Gupta

Visiting Forward Deployed AI Engineer: LLM Systems, Enterprise APIs & Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Hybrid Milan / Relocation)

Summary

Forward deployed AI engineer who bridges client problem discovery, rapid software prototyping, and enterprise-grade AI deployment. Experienced in embedding directly with product teams to build agentic workflows, multi-format RAG ingestion engines, and governed human-in-the-loop validation systems. At FlowSpace, architected an automated document extraction pipeline (900+ listings drafted), deployed live customer-facing support agents with confidence-based escalation, and led the platform migration off a legacy stack to Next.js and Laravel (scaling 2,000 to 4,500+ users). Daily practitioner with Claude Code, TypeScript, Python, REST APIs, and event-driven architectures.

Skills

- **Forward Deployed & Solutions Engineering:** Client discovery, technical scoping, rapid prototyping, production roll-outs, human-in-the-loop review interfaces, non-technical stakeholder enablement, field troubleshooting, product feedback loops
- **Agentic AI & LLM Systems:** Claude Code (daily driver), Anthropic Claude API, OpenAI API, prompt engineering, Model Context Protocol (MCP), tool use and function calling, structured JSON output validation, RAG architectures, multi-agent orchestration, confidence scoring, evaluation harnesses
- **Full-Stack, APIs & Architecture:** TypeScript, Python, Node.js, Next.js, Laravel (PHP), REST APIs, OpenAPI, webhooks, asynchronous jobs, retry and rate-limit handling, PostgreSQL, Supabase, third-party integrations (OfficeRnD, Nexudus, CRM, Google APIs)
- **Testing, Reliability & DevOps:** Docker, Git/GitHub, CI/CD, Playwright automated testing, Postman contract testing, unit testing, schema enforcement, logging, exception escalation, production monitoring

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Architected and deployed an end-to-end multi-format AI document ingestion pipeline (n8n, Claude API, TypeScript) with tool use and structured parsing to extract data from unstructured PDFs, spreadsheets, and web sources into validated schemas; drafted 900+ production listings.
- Designed governed agentic workflows with strict schema validation and approval gates, enabling non-technical staff and consultants to safely review and verify AI outputs prior to production release.
- Built and deployed customer-facing support AI agents querying live operational databases with confidence scoring thresholds and deterministic fallback paths to human staff.
- Engineered bidirectional enterprise integrations with OfficeRnD and Nexudus APIs for automated bookings, managing rate limits, webhooks, and retry logic across service boundaries.
- Led core platform migration off a legacy stack to coded Next.js and Laravel (PostgreSQL), scaling active users from 2,000 to 4,500+ without downtime.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated data collection and validation pipelines using n8n and Google APIs, streamlining database synchronization and candidate matching logic.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg (remote)*

Integrated core REST APIs across frontend modules, executed QA/unit testing, and delivered administrative federation dashboards.

Tractionboard.co **Aug 2023 - Oct 2023**
Developer (Internship) *Utrecht, Netherlands (remote)*

Integrated OpenAI/ChatGPT and Sendgrid APIs, designed responsive frontend interfaces, and debugged production features.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine demonstrating multi-format document parsing (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Urlink** (2025): Project Manager & Integration Developer; managed client requirements, platform logic, and automated workflows using Next.js and Supabase.
- **UltraStrategy** (2024 - 2025): AI Automation Developer; built an LLM document extraction tool with n8n and Eden AI for multi-profile candidate data processing.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: Italian EU Long Term Residence Permit (unrestricted EU work rights, no visa sponsorship needed in Italy/EU); available immediately. **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
