Prabhavit Gupta

Fullstack Developer & AI Engineer

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Full-stack engineer with over 2 years of experience building scalable applications, REST APIs, and microservices architectures. Proficient in Node.js, TypeScript, and modern database systems (PostgreSQL, Supabase), with a strong foundation in integrating complex tools and automating data flows. While my recent focus has been on Node.js and AI integrations rather than Java (J2EE/Spring) and Oracle PL/SQL, my deep understanding of full-stack principles and CI/CD pipelines enables me to quickly adapt to new tech stacks. I bring strong analytical skills, problem-solving capabilities, and an eagerness to contribute to BFF Banking Group's finance area.

Skills

- **Core Technologies & Architectures:** Node.js, TypeScript, JavaScript, Next.js, Python, REST APIs, Microservices, Webhooks
- **Databases & Infrastructure:** SQL (PostgreSQL, Supabase), CI/CD (GitHub, Docker), Git, Azure DevOps concepts
- **Development Tools:** Visual Studio Code, Git, Jenkins (conceptually familiar)
- **Other & AI:** Claude Code, LLM APIs, Data Extraction, Automation (n8n, Make)

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer *London, UK (remote)*

- Migrated a live marketplace platform to a modern Next.js and PHP architecture, scaling from 2,000 to 4,500+ users.
- Designed and implemented RESTful APIs and microservice-oriented data pipelines using Node.js and TypeScript.
- Developed and deployed support agents and data extraction pipelines, emphasizing robust error handling and API integrations.
- Utilized Git for version control and CI/CD workflows, collaborating effectively with a remote team.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist *Berlin, Germany*

- Built backend automations and tools utilizing REST APIs, integrating multiple data sources.
- Optimized database schemas to enhance query response times for high-frequency searches.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA *Foetz, Luxembourg*

- Integrated the Clubee REST API across the frontend, ensuring data integrity and responsiveness.
- Conducted unit testing and quality assurance to maintain production stability.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

- Built front-end designs and integrated external APIs (OpenAI, Sendgrid) into the platform.

Freelance Projects

- **Urlink** (2025): Developed backend logic and client-driven automations using Node.js, Next.js, and Supabase.
- **UltraStrategy** (2024 – 2025): Created backend parsing services extracting and structuring data into unified SQL database schemas, handling API limits and scaling.

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy); available immediately for Milan. **Languages:** English (Professional C2), Italian (Conversational), Hindi (Native).
