Professional Summary

Senior Full-Stack Developer with over 4 years of experience analyzing, designing, and building scalable web applications. Proficient in Angular, .NET, and SQL Server, with a strong background in creating RESTful APIs and integrating complex systems. Experienced in Agile environments and cloud deployments (AWS, Docker).

Technical Skills

- **Frontend:** Angular, TypeScript, HTML5/CSS3, JavaScript
- **Backend:** .NET, C#, REST APIs, Node.js, MuleSoft (familiar)
- **Database:** SQL Server, PostgreSQL, Hasura
- **Infrastructure & Tools:** AWS, Docker, Git, CI/CD, Agile Methodologies

Professional Experience

Full Stack Developer **2021 – Present**
Tech Solutions, Freelance / Remote

- Designed and developed robust web applications using Angular (frontend) and .NET (backend), increasing system performance by 30%.
- Created and consumed RESTful APIs to integrate internal business logic with third-party services.
- Managed databases using SQL Server, writing complex stored procedures and optimizing queries.
- Deployed microservices using Docker and AWS, ensuring high availability and scalability.
- Collaborated with cross-functional Agile teams to deliver features in 2-week sprints.

Software Engineer **2019 – 2021**
Innovate IT, Milan, Italy

- Participated in the full software development lifecycle of internal enterprise tools.
- Developed backend services in C#/.NET and frontend interfaces in Angular.
- Assisted in the migration of legacy applications to a modern microservices architecture with Docker.

Education

Master's Degree in Computer Science **2017 – 2019**
University of Padua, Italy

Bachelor's Degree in Information Technology **2014 – 2017**
