Professional Summary

Senior Full Stack Engineer with over 6 years of experience building scalable end-to-end web applications. Strong expertise in Python, Django REST Framework (DRF), React.js, and PostgreSQL. Proven ability to design robust backend architectures on AWS and develop dynamic frontend interfaces. Highly proficient in AI-assisted development utilizing Claude Code and integrating AI tools into daily workflows to drive rapid, autonomous feature delivery in remote environments.

Technical Skills

- **Languages:** Python, TypeScript, JavaScript, SQL, C#, Java
- **Backend:** Django, Django REST Framework (DRF), FastAPI, Node.js
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Angular
- **Databases & Cloud:** PostgreSQL, Redis, AWS (EC2, S3, RDS), Docker
- **AI & Tooling:** Claude Code, MCP Servers, Git, CI/CD pipelines

Experience

Senior Full Stack Engineer 2021 – Present
Freelance / Contract Remote

- Designed and delivered end-to-end full-stack features using Django REST Framework for the backend and React.js for the frontend.
- Accelerated development cycles by seamlessly integrating AI tools like Claude Code and internal MCP servers into daily programming workflows.
- Engineered robust backend services backed by PostgreSQL databases, optimizing data retrieval efficiency by 30%.
- Deployed scalable applications to AWS cloud infrastructure, ensuring high availability and automated CI/CD deployments via Docker.
- Worked autonomously across distributed, remote teams to transform complex business requirements into deliverable, AI-augmented software solutions.

Software Engineer 2018 – 2021
Tech Solutions Inc. Milan, Italy (Hybrid)

- Contributed to the development of enterprise web applications, leveraging Python and relational databases to improve system performance.

- Built and maintained RESTful APIs, facilitating seamless integration with varied front-end web clients.
- Optimized DevOps and CI/CD pipelines utilizing Docker, decreasing deployment times by 20%.
- Championed clean code principles, extensive unit testing, and agile methodologies within a collaborative environment.

Education

Master of Science in Computer Science 2018
University of Venice Venice, Italy
