Profile

Senior Full Stack Developer with deep expertise in designing and operationalizing production-grade, distributed systems and web applications using Django and React. Proven track record of architecting scalable microservices, orchestrating cloud-native deployments via AWS and Docker, and building complex data integrations with PostgreSQL. Adept at full-stack migrations and ensuring system reliability through AI-augmented development environments (Claude Code, MCP), CI/CD, and robust testing. Highly autonomous professional with experience in delivering top-tier solutions in fully remote environments.

Core Competencies

- **Backend & Systems:** Django REST Framework, Python, System Design, Concurrency, REST APIs, Microservices
- **Frontend:** React, TypeScript, Node.js, Component-driven UI development
- **Cloud & Infrastructure:** AWS, Docker, Kubernetes, CI/CD pipelines, Observability
- **Data & AI:** PostgreSQL, Supabase, AI-assisted development (Claude Code, Model Context Protocol)

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Full Stack Developer (Freelance) *Mar 2024 - Present*

- Architected and deployed scalable, asynchronous backend services using Python and cloud platforms to ingest unstructured enterprise data.
- Led the end-to-end migration of a live platform from a legacy stack to a cloud-native React and microservices architecture, optimizing resource management for 4,500+ active users.
- Engineered complex REST API integrations with external systems, establishing robust communication pipelines.
- Owned the infrastructure lifecycle from design to production on AWS, implementing modern CI/CD practices, AI-assisted code automation (Claude Code), and containerization.

Urlink **Barcelona, Spain**

Project Manager & Backend Developer (Freelance) *Apr 2025 - Jul 2025*

- Delivered a robust cloud-native platform leveraging PostgreSQL (Supabase) and advanced backend logic to execute complex, multi-tenant client automations.
- Acted as the technical authority working directly with stakeholders, translating business requirements into scalable Django-driven architectural designs.

UltraStrategy.com **France**

Backend Automation Engineer (Collaborator) *Dec 2024 - May 2025*

- Designed and deployed a robust data-parsing pipeline operating within a modern data ecosystem, handling complex extraction logic and ensuring high throughput.

Get2Germany.com **Berlin, Germany**

Lead Developer & Integration Specialist *Jan 2024 - May 2024*

- Integrated third-party APIs and built robust automation workflows to streamline enterprise operations and system integrations.

Clubee.com **Foetz, Luxembourg**

Full-Stack Developer & QA (Freelance) *Sep 2023 - Aug 2024*

- Implemented REST API endpoints, developed frontend React components, and enforced production-grade quality through rigorous unit testing and system QA.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*
