Prabhavit Gupta

AI Engineer: Generative AI, Agentic Workflows & MLOps Pipelines

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice / Milan, Italy

Summary

AI Engineer with hands-on experience designing, developing, and deploying production-grade Generative AI pipelines, RAG architectures, and multi-agent workflows. At FlowSpace, architected an autonomous multi-step LLM pipeline processing 900+ multi-format unstructured documents with human-in-the-loop review, and shipped customer-facing support agents with confidence-scoring escalation. Proven track record building resilient backends, evaluating models on latency and hallucination guardrails, and integrating enterprise REST APIs. Academic background in Logic and Economics from Ca' Foscari University of Venice; Italian EU Long Term Residence Permit with immediate hybrid availability in Milan.

Skills

- **Generative AI & Agentic Systems:** Multi-agent orchestration, tool/function calling, RAG architectures (vector search, embeddings, retrieval quality), prompt engineering, LLM evaluation harnesses, confidence scoring thresholds, guardrails, human-in-the-loop review, Azure OpenAI and Claude APIs, n8n
- **Engineering, Cloud & MLOps:** Python (FastAPI, data pipelines), SQL, TypeScript, Node.js, Next.js, Laravel (PHP), Azure cloud ecosystem, Databricks workflows, Docker, CI/CD, REST APIs, webhooks, structured logging, latency and token optimization, automated testing (Playwright, Postman)
- **Enterprise Integration & Architecture:** Third-party API integrations (OfficeRnD, Nexudus, Google APIs, SendGrid, CRM systems), relational databases (PostgreSQL, Supabase), schema validation (JSON/Pydantic), legacy-to-modern platform migrations, distributed data consistency

Experience

FlowSpace.co **Mar 2024 - Present**

Lead Developer & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Architected and deployed an end-to-end multi-format ingestion pipeline (Python, TypeScript, n8n, Claude API) extracting unstructured data from PDFs, images, spreadsheets, and web brochures into validated JSON schemas; 900+ entities processed.
- Shipped customer-facing AI support agents operating over live operational data, implementing confidence-scoring thresholds and deterministic fallback paths that escalate uncertain queries to human specialists.
- Created evaluation harnesses, validation datasets, and benchmarks to measure AI workflow accuracy, guardrails, and latency, preventing hallucinations before production deployment.
- Engineered bidirectional REST API and webhook integrations (OfficeRnD, Nexudus, CRM platforms) for automated booking and customer synchronization with robust error handling.
- Led platform and database migration off a legacy stack to coded Next.js and Laravel (PostgreSQL), scaling from 2,000 to 4,500+ users without downtime.

UltraStrategy.com **Dec 2024 - May 2025**

AI & Automation Developer (Collaborator) *France (remote)*

Built an automated document intelligence pipeline in n8n and Eden AI, structuring unstructured PDF data into schema-validated JSON records across multi-tier user profiles.

Qomodo **2024 - Jan 2025**

AI & Low-Code Developer (Collaborator) *Milan, Italy*

Collaborated with Milan-based engineering team to build an enterprise branch-management platform, implementing responsive frontend modules from Figma designs and optimizing state logic.

Urlink **Apr 2025 - Jul 2025**

Project Manager & AI-Assisted Developer (Freelance) *Barcelona, Spain (remote)*

Managed client requirements and built platform logic using AI-assisted development workflows (Claude Code), delivering automated workflows and Supabase backend services.

Get2Germany.com **Jan 2024 - May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated data collection and categorization pipelines in n8n and integrated Google APIs, streamlining database synchronization and matching algorithms.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine demonstrating multi-format document parsing (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Production RAG Support Agent**: Knowledge-base retrieval agent with semantic search, confidence score gates, and automated escalation to human staff.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft: Building AI Agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: European Long Term Residence Permit (Italy); full Italian work rights with no visa sponsorship needed. Available immediately. **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
