Prabhavit Gupta

Forward Deployed Product Manager

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Product-minded engineer specializing in agentic AI deployments, API integrations, and translating complex customer-specific learnings into reusable product patterns. At FlowSpace and as a freelance Project Manager/Developer, I successfully managed the full delivery lifecycle from scoping ambiguous client requirements and defining MVPs to shipping production AI workflows and API integrations. Proven ability to bridge technical execution with commercial outcomes, thriving in early-stage, high-ambiguity startup environments to ensure pilot deployments become must-have solutions.

Skills

- **Product & Delivery:** MVP scoping, requirements gathering, cross-functional stakeholder alignment, customer success, prioritization, commercial judgment, GTM automation, high-ownership project management
- **AI & Agentic Workflows:** LLM tool orchestration, RAG, prompt engineering, agent evaluation, Claude and OpenAI APIs, Model Context Protocol (MCP), human-in-the-loop systems, Claude Code, n8n
- **Technical Implementation:** API integrations (REST/OpenAPI), data pipelines, system architecture, Python, TypeScript, Node.js, Next.js, PostgreSQL, Supabase
- **Execution Environment:** Fast context switching, startup agility, navigating high ambiguity without a playbook

Experience

FlowSpace.co **Mar 2024 – Aug 2026**

Full-Stack AI & Product Engineer (Full-time, Freelance) *London, UK (remote)*

- Managed the end-to-end deployment of AI support agents that answer customer queries against live platform data, translating pilot implementations into reliable core platform features.
- Bridged engineering and GTM teams by building automated CRM integrations for lead capture and routing, directly driving commercial outcomes and successfully scaling the live marketplace to 4,500+ users.
- Defined MVP scopes and made critical technical tradeoffs to migrate the platform off a legacy stack to a scalable Next.js and Laravel architecture.

Get2Germany.com **Jan 2024 – May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs and built robust AI tools in n8n to automate course, internship, and job discovery, improving platform value and optimizing the underlying database.

Clubee.com **Sep 2023 – Aug 2024**

Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran comprehensive QA to ensure reliable customer deployments, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**

Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid APIs, navigating implementation constraints to build responsive front-end designs and reliable features.

Freelance Projects

- **Urlink** (2025), Project Manager & Forward Deployed Developer. Managed ambiguous client requirements, defined the MVP scope, and shipped custom, client-driven automations using Next.js and Supabase.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a scalable CV-parsing tool (LLM data extraction) using n8n and Eden AI, turning specific user needs into a reusable platform supporting multiple profiles.
- **Qomodo** (2024 to 2025), AI Developer. Aligned stakeholders to build and deliver a company dashboard for managing complex branch operations.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy); available immediately. **Languages:** Hindi (native), English (professional), Italian (conversational).
