Prabhavit Gupta

DevOps & Automation Engineer: CI/CD, IaC & Platform Reliability

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

DevOps and Automation Engineer with 3+ years of experience engineering automated deployment pipelines, infrastructure automation, and resilient software delivery systems across European teams. At FlowSpace, orchestrated the zero-downtime platform and infrastructure migration off a legacy architecture onto a modern containerized Next.js, Laravel, and PostgreSQL stack, scaling from 2,000 to 4,500+ users. Proficient in designing automated CI/CD pipelines (Jenkins workflows, GitHub Actions), Infrastructure as Code with Terraform, configuration management with Ansible, Docker containerization, and advanced scripting in Python, Bash, and TypeScript.

Skills

- **CI/CD & Release Automation:** Jenkins pipelines, GitHub Actions workflows, automated build and deployment stages, branching strategies, PR management, artifact versioning, automated rollback, and blue-green/canary release concepts
- **Infrastructure as Code & Cloud:** Terraform (IaC provisioning and state management), Cloud platforms (AWS, Azure, Supabase), Linux system administration, Docker containerization, cloud networking fundamentals, infrastructure security best practices
- **Configuration Management & Scripting:** Ansible playbooks, server provisioning, environment configuration, Python scripting, Bash/Shell, TypeScript, Node.js, REST APIs, webhook automation, automated error recovery
- **Testing, Reliability & Collaboration:** Automated end-to-end and integration testing (Playwright, Postman), unit testing, logging and observability, Git/GitHub, Jira, agile delivery in distributed multidisciplinary engineering teams

Experience

FlowSpace.co **Mar 2024 - Aug 2026**

Lead DevOps & Full-Stack Engineer (Full-time, Freelance) *London, UK (remote)*

- Led the core infrastructure and platform migration off a legacy stack onto containerized Next.js and Laravel (PostgreSQL) services, executing entity-level cutover scripts with zero downtime while scaling to 4,500+ users.
- Designed and maintained automated CI/CD pipelines and deployment workflows, automating testing, linting, and build steps to ensure reliable, repeatable releases across staging and production environments.
- Engineered custom Python and TypeScript automation scripts and webhook listeners to integrate external enterprise APIs (OfficeRnD, Nexudus), implementing automated retry logic, error handling, and transactional consistency.
- Architected an automated document ingestion pipeline (TypeScript, Python, n8n, Claude API) processing 900+ entities with schema-enforced validation, error logging, and human-in-the-loop review controls.
- Built automated end-to-end regression test suites with Playwright, embedding automated smoke tests into deployment pipelines to safeguard system stability.

Get2Germany.com **Jan 2024 - May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany*

Developed automated data workflows in n8n, integrated Google Cloud APIs, and automated database maintenance and query optimization routines.

Clubee.com **Sep 2023 - Aug 2024**

Developer & QA Automation (Full-time, Freelance) *Foetz, Luxembourg*

Integrated enterprise REST APIs across the platform, maintained automated QA test suites, and developed administrative federation dashboard tools.

Tractionboard.co **Aug 2023 - Oct 2023**

Developer (Internship) *Utrecht, Netherlands*

Integrated OpenAI and SendGrid APIs for automated data handling, resolved production bugs, and implemented responsive frontend interfaces.

Selected Projects

- **Urlink** (2025), DevOps & Full-Stack Engineer. Provisioned PostgreSQL schemas on Supabase, designed platform business logic, and automated continuous deployment workflows via Netlify CI/CD.
- **UltraStrategy** (2024 - 2025), Automation Developer. Built an automated document-processing ETL pipeline using n8n and Eden AI for multi-source data extraction into structured candidate profiles.
- **LLM Document Parser** (Open Source), Creator. Engineered a public pipeline parsing semi-structured documents into strictly validated JSON schemas with automated test coverage.

Certifications

Microsoft Power Automate (Certified) • Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy); full authorization to work across Sweden and the EU without visa sponsorship; available immediately. **Languages:** English (fluent / C2), Hindi (native), Italian (conversational).
