Forward Deployed Engineer and AI Automation lead. I bridge the gap between operational requirements and technical execution. Shipped multiple production-ready AI agents and internal tools to streamline business processes. Proven track record in rapid prototyping with TypeScript, Next.js, and Python. Adept at partnering with cross-functional teams to translate complex business needs into scalable infrastructure.

Core Competencies

- **AI Integration & Agents**: Shipped production AI agents using OpenAI, Claude, and n8n. Integrated RAG and LLM-driven workflows to automate data extraction.
- **Full-Stack Development**: Expert in TypeScript, Next.js, and Python. Experience migrating complex platforms and owning end-to-end architecture in fast-paced environments.
- **Internal Tooling**: Built and maintained tools for lead capture, CRM integration, and QA automation to streamline cross-domain operations.
- **Cross-Functional Collaboration**: Partnered with founders, agencies, and stakeholders across Europe to define requirements and deliver technical solutions.
- **API & Systems Integration**: Deep expertise in REST APIs, webhooks, and third-party systems.

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer (Freelance) *Mar 2024 - Jul 2026*

- Owned technical product strategy and execution, scaling platform adoption from 2,000 to over 4,500 active users through iterative feature development.
- Architected and led the migration of the core product from Bubble.io to a modern TypeScript and Next.js stack.
- Built and deployed internal AI agents and automation tools for lead enrichment, sales-funnel operations, and customer support using n8n and LLM APIs.
- Engineered complex third-party API integrations, connecting external CRM, Nexudus, and Office RnD systems to streamline workflows.
- Mediated technical requirements between the internal founding team and external development agencies, ensuring alignment on business logic and QA.

Urlink, UltraStrategy, Qomodo, Clubee **Europe (Remote)**

AI Solutions & Automation Engineer (Freelance) *Jun 2023 - Mar 2024*

- Partnered with European startups as a forward-deployed technical consultant, diagnosing operational bottlenecks and shipping custom automation solutions.
- Developed a production CV-parsing engine leveraging n8n and Eden AI, significantly reducing manual data entry for client operations.
- Built low-code and full-stack prototypes, turning unwritten business requirements into functional, scalable internal tools.
- Integrated automated outbound and revenue-adjacent workflows using Python, Make, and Zapier to accelerate client GTM strategies.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *2020 - 2024*

Minor in Entrepreneurship. Focus on analytical problem-solving and cross-cultural communication.

Languages

- **English**: Professional
- **Hindi**: Native
- **Italian**: Beginner
