Prabhavit Gupta

Forward Deployed Engineer, Applied AI

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Software engineer specializing in AI orchestration frameworks, API architecture, and translating complex business requirements into custom working software. At FlowSpace I engineered custom support agents operating over live platform data and built robust integrations connecting foundational models to client-facing CRM and operational systems. Hands-on with Python, TypeScript, SQL, REST/GraphQL APIs, and AI-assisted engineering (including Claude Code), bridging the gap between product engineering and customer success to deploy solutions in days rather than quarters.

Skills

- **AI Orchestration & Tooling:** LLM APIs (Claude, OpenAI), agentic workflows, Model Context Protocol (MCP), tool-calling, RAG, prompt engineering, n8n, Claude Code
- **Languages & Cloud Platforms:** Python, TypeScript, JavaScript, Node.js, Next.js, SQL, GCP (Google APIs), Docker, CI/CD
- **API & Integration Architecture:** REST/GraphQL APIs, OpenAPI specifications, webhook integrations, schema validation, third-party system integrations, PostgreSQL, Supabase, Laravel
- **Client Engagement:** Translating business requirements to technical architecture, training customer teams, rapid prototyping, managing client-driven automations

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built a custom AI pipeline (Python, TS, Claude, n8n) extracting structured data from PDFs, websites, and client spreadsheets with human-in-the-loop review, drafting 900+ verified platform listings.
- Embedded AI into the core product by shipping customer support agents that query live database records and intelligently escalate to human teams on low confidence.
- Architected API integrations with third-party providers (OfficeRnD, Nexudus) to automate external bookings, alongside CRM/GTM workflows for lead capture and enrichment.
- Migrated the core live marketplace off a legacy stack to a modern Next.js/Laravel architecture, scaling active users from 2,000 to 4,500+ and directly communicating technical decisions to stakeholders.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs and built custom AI tools in n8n to aggregate courses, internships, and job postings, feeding business insights directly to the founders.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the core Clubee API across the frontend, executing rigorous unit testing to ensure reliable customer deployments.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated OpenAI and Sendgrid APIs, translating business logic into responsive front-end workflows.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Managed direct client requirements, translating business needs into shipped automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 – 2025), AI Automation Developer. Built a custom CV-parsing solution via LLM data extraction for client environments using n8n and Eden AI.
- **Qomodo** (2024 – 2025), AI Developer. Built an intuitive dashboard for companies to manage branch operations based on provided design specs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy); willing to relocate to Zurich. **Languages:** Hindi (native), English (professional), Italian (conversational).
