Prabhavit Gupta

Client Support Engineer: Enterprise SaaS, SQL Diagnostics & API Integrations

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy
(Relocating to Lisbon, Portugal)

Summary

Technical, client-facing engineer with 3+ years of experience troubleshooting enterprise SaaS platforms, performing deep-dive SQL and API diagnostics, and resolving client-reported technical issues. At FlowSpace, owned production incident resolution end-to-end, debugging REST integrations, analyzing database logs, and resolving data synchronization anomalies while managing a core platform migration scaling to 4,500+ users. Hands-on with SQL query writing, relational schema analysis (PostgreSQL, Supabase), REST/webhooks, Postman, browser devtools, system log tracing, and automated testing (Playwright). Experienced in communicating technical findings to enterprise clients and preparing structured escalation packets for engineering teams.

Skills

- **Technical Support & Diagnostics:** Root-cause analysis, ticket triage, high-severity incident resolution, browser devtools, network/HTTP trace inspection, server log analysis, SLA management, engineering escalation packets, bug documentation
- **Databases & SQL:** SQL/T-SQL query writing, PostgreSQL, Supabase, MySQL, relational data modeling, schema mapping, database performance optimization, data integrity auditing, data cutovers
- **APIs & Enterprise Integrations:** REST APIs, webhooks, JSON, XML/SOAP data exchange concepts, OpenAPI/Swagger, Postman, authentication (OAuth2, API keys), third-party integrations (OfficeRnD, Nexudus, SendGrid, CRMs)
- **Languages, QA & Tools:** TypeScript, JavaScript, Python, Node.js, Next.js, Laravel (PHP), Playwright automated testing, Git/GitHub, Docker, Jira, n8n workflow automation

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & Technical Support Engineer (Full-time, Freelance) *London, UK (remote)*

- Owned tier-2 and tier-3 technical incident triage and end-to-end resolution for live marketplace users, diagnosing backend anomalies, database mismatches, and web application issues.
- Utilized SQL queries and database log diagnostics on PostgreSQL/Supabase to isolate data synchronization failures, verify data integrity, and resolve transactional discrepancies.
- Troubleshot complex REST API and webhook integrations connecting external platforms (OfficeRnD, Nexudus, SendGrid), resolving payload parsing errors, rate limiting, and authentication failures.
- Deployed AI-powered client support workflows on live data with confidence scoring and automated human escalation, resolving routine inquiries and routing complex tickets with full context.
- Led platform and database migration off a legacy stack to coded Next.js and Laravel, auditing relational schemas and ensuring zero downtime across 4,500+ active users.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA Engineer (Full-time, Freelance) *Foetz, Luxembourg (remote)*

Investigated frontend-backend integration issues, inspecting network traffic, payload schemas, and HTTP status codes to diagnose failure points. Executed end-to-end API and UI troubleshooting, conducting unit testing and QA to isolate defects.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated data collection and validation pipelines using n8n and Google APIs, optimizing SQL database queries and resolving operational data pipeline errors.

Tractionboard.co **Aug 2023 - Oct 2023**
Developer (Internship) *Utrecht, Netherlands (remote)*

Diagnosed and resolved client-facing software bugs, validated API endpoints (ChatGPT/OpenAI, SendGrid), and debugged responsive web modules.

Selected Projects

- **Urlink** (2025): Technical Project Manager & Developer. Managed client technical requirements, investigated platform edge cases, and implemented automated workflows using Next.js and Supabase.
- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine demonstrating multi-format document parsing (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Power Automate • Microsoft Copilot Studio Agent Academy • Microsoft: Building AI Agents • Tray.AI Build Practitioner

Work authorization: Italian EU Long Term Residence Permit (no visa sponsorship needed in Portugal/EU; available immediately).
Languages: English (fluent C2), Hindi (native), Italian (conversational).
