Professional Summary

Senior Software Engineer with a strong track record of designing and delivering scalable web applications, RESTful APIs, and custom solutions. Adept at full-stack development using Python, TypeScript, SQL, and cloud platforms. Proven ability to bridge the gap between technical execution and business requirements, with extensive experience operating in client environments and collaborating with cross-functional, international teams to translate complex needs into working software.

Technical Skills

- **Languages:** Python, TypeScript, JavaScript, SQL, C#, Java
- **Frontend & APIs:** Angular, REST/GraphQL APIs, RxJS, HTML5, CSS3
- **Backend & Cloud:** .NET Core, ASP.NET, Entity Framework Core, AWS, Azure DevOps
- **Databases:** SQL Server, PostgreSQL, Redis
- **DevOps & Architecture:** Docker, Git, CI/CD pipelines, Microservices

Experience

Senior Software Developer 2021 – Present
Freelance / Contract Remote

- Embedded with client teams to architect and build custom, scalable solutions, reducing data retrieval times by 30% through optimized RESTful APIs.
- Bridged the gap between product engineering and customer success by analyzing business needs and delivering end-to-end features.
- Engineered responsive UI components using TypeScript and modern web frameworks, improving overall user experience.
- Context-switched between deep technical troubleshooting and business conversations, ensuring seamless integration of products into existing infrastructure.

Software Engineer 2018 – 2021
Tech Solutions Inc. Milan, Italy (Hybrid)

- Contributed to the development of enterprise-level software systems utilizing Python, C#, and SQL databases in a fast-paced environment.
- Maintained and optimized CI/CD pipelines using Docker and cloud platforms, decreasing deployment times by 20%.
- Enforced clean code practices and test-driven development (TDD), achieving comprehensive unit test coverage.

Education

Master of Science in Computer Science 2018
University of Venice Venice, Italy
