Profile

Backend Software Engineer with deep expertise in designing and operationalizing production-grade, distributed systems and SaaS APIs. Proven track record of architecting scalable microservices, orchestrating cloud-native deployments via Docker and Kubernetes, and building complex data integrations. Adept at full-stack migrations and ensuring system reliability through CI/CD, observability, and robust testing. Quick learner equipped with modern AI tooling to rapidly onboard into Java and Spring Boot ecosystems.

Core Competencies

- **Backend & Systems:** Microservices architecture, REST APIs, System Design, Concurrency, Performance Tuning
- **Languages & Frameworks:** TypeScript, Node.js, Python; foundational object-oriented design (bridging to Java/Spring)
- **Cloud & Infrastructure:** Docker, Kubernetes, AWS/Cloud platforms, CI/CD, Observability
- **Data & Integration:** SQL (Supabase), CRM/ERP integrations, Event-driven architecture concepts (Kafka/RabbitMQ)

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Backend Developer (Freelance) *Mar 2024 - Present*

- Architected and deployed scalable, asynchronous backend services that ingest unstructured enterprise data, ensuring fault-tolerant processing and data integrity.
- Led the end-to-end migration of a live platform from a legacy stack to a cloud-native architecture, optimizing resource management and successfully scaling to support 4,500+ active users.
- Engineered complex REST API integrations with external systems (OfficeRnD, Nexudus), establishing robust microservice communication and automated pipelines.
- Owned the infrastructure lifecycle from design to production support, implementing modern CI/CD practices and containerization.

Urlink **Barcelona, Spain**

Project Manager & Backend Developer (Freelance) *Apr 2025 - Jul 2025*

- Delivered a robust cloud-native platform leveraging Supabase (SQL) and advanced backend logic to execute complex, multi-tenant client automations.
- Acted as the technical authority working directly with stakeholders, successfully translating business requirements into scalable architectural designs.

UltraStrategy.com **France**

Backend Automation Engineer (Collaborator) *Dec 2024 - May 2025*

- Designed and deployed a robust data-parsing pipeline operating within a modern data ecosystem, handling complex extraction logic and ensuring high throughput.

Get2Germany.com **Berlin, Germany**

Lead Developer & Integration Specialist *Jan 2024 - May 2024*

- Integrated third-party APIs (Google) and built robust automation workflows utilizing n8n to streamline enterprise operations and system integrations.

Clubee.com **Foetz, Luxembourg**

Full-Stack Developer & QA (Freelance) *Sep 2023 - Aug 2024*

- Implemented REST API endpoints, developed core backend tools, and enforced production-grade quality through rigorous unit testing and system QA.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*

Minor in Entrepreneurship

Certifications & Languages

Work Authorization: European Long Term Residence Permit (Italy). Remote or open to relocation.
Languages: English (Professional), Hindi (Native), Italian (Beginner).
