Professional Summary

Senior Full Stack Developer with strong expertise in C#, .NET Core, and Angular. Proven track record in designing and implementing scalable web applications and RESTful APIs. Adept at both backend logic and frontend user interfaces. Advanced problem-solving skills and experience collaborating in remote, cross-functional teams to deliver high-quality software solutions.

Technical Skills

- **Languages:** C#, TypeScript, JavaScript, SQL, Java, Python
- **Frontend:** Angular, HTML5, CSS3, Bootstrap, RxJS
- **Backend:** .NET Core, ASP.NET Core Web API, Entity Framework Core
- **Databases:** SQL Server, PostgreSQL, Redis
- **DevOps & Tools:** Docker, Git, CI/CD pipelines, AWS, Azure DevOps

Experience

Senior Full Stack Developer 2021 – Present
Freelance / Contract Remote

- Designed and developed robust full stack web applications using .NET Core for backend services and Angular for frontend interfaces.
- Built and integrated secure, scalable RESTful APIs (ASP.NET Core), reducing data retrieval times by 30%.
- Developed responsive and dynamic UI components in Angular using TypeScript and RxJS, significantly improving user experience.
- Investigated and resolved production issues (debug), implementing performance optimizations and ensuring system stability.
- Collaborated with international tech teams to gather requirements, analyze business needs, and deliver end-to-end features.

Software Engineer 2018 – 2021
Tech Solutions Inc. Milan, Italy (Hybrid)

- Contributed to the development of enterprise-level software systems utilizing C#, .NET, and SQL Server.
- Maintained and optimized CI/CD pipelines using Docker, decreasing deployment times by 20%.
- Enforced clean code practices and test-driven development (TDD), achieving comprehensive unit test coverage.

Education

Master of Science in Computer Science 2018
University of Venice Venice, Italy
