AI & Full-Stack Engineer specializing in building and deploying production Agentic AI workflows. Experienced in leading full-stack migrations and translating complex business requirements into robust, automated pipelines using TypeScript, Python, and LLMs. Highly adaptable, proven across European startups, and eager to implement Kinaxis Maestro Agentic AI solutions directly with enterprise clients.

Core Competencies

- **Agentic AI & LLMs:** Developed and deployed production AI agents with human-in-the-loop review, using Claude, OpenAI, and n8n to automate complex data extraction.
- **Data Pipelines & Integrations:** Built robust pipelines connecting diverse systems (REST APIs, Postgres, Supabase, internal CRMs) to unify fragmented data layers.
- **Full-Stack Engineering:** Led live-product migration to Next.js and Laravel, scaling a live platform from 2,000 to over 4,500 active users.
- **Customer-Facing Deployment:** Direct experience triaging client issues and working with cross-functional teams to translate ambiguity into shippable engineering solutions.

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer *Mar 2024 - Aug 2026*

Lead engineer for a B2B workspace marketplace, owning full-stack product and AI automation features.

- Built and deployed a production **AI listing bot** (n8n, Claude API, TypeScript) that ingests unstructured multi-format brochures (PDFs, sites) and generates structured workspace listings.
- Developed **support AI agents** connected to live database state, featuring dynamic confidence-based escalation to human operators.
- Led end-to-end live migration off a legacy stack onto a coded Next.js and Laravel architecture, scaling platform capacity to 4,500+ users.
- Shipped mission-critical B2B software integrations, including CRM data-sync pipelines, OfficeRnD, and Nexudus REST API webhooks.

Urlink **Barcelona, Spain (Remote)**

AI-Assisted Developer (Freelance) *Apr 2025 - Jul 2025*

Built smarturlink.com platform logic and implemented client-driven automations.

- Translated client requirements into shippable platform code using Next.js, Supabase, and AI coding tools.

UltraStrategy **France (Remote)**

AI Automation Developer (Collaborator) *Dec 2024 - May 2025*

- Engineered a CV-parsing **LLM pipeline** with Eden AI and n8n for structured data extraction.

Clubee.com **Foetz, Luxembourg (Remote)**

Full-Stack Developer & QA *Sep 2023 - Aug 2024*

- Integrated backend REST APIs across frontend systems, maintained robust testing pipelines (Playwright, unit testing), and developed federation-dashboard tools.

Technical Skills

- **Languages:** TypeScript, Python, JavaScript, PHP (Laravel)
- **AI & Orchestration:** Claude API, OpenAI API, RAG architectures, n8n, Eden AI, Prompt Engineering
- **Data & Infrastructure:** Postgres, Supabase, REST/GraphQL APIs, Next.js, Node.js
- **Tools:** GitHub, Playwright, Postman, Microsoft Copilot Studio Agent Academy Certified

Education

Ca' Foscari University **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*

Minored in Entrepreneurship. Focus on analytical problem solving and strategic implementation.
