Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

Career Summary

- IT Infrastructure & Systems Automation Engineer with dual degrees in Mechanical Engineering and Management Engineering (Politecnico di Milano).
- Experienced in administering Linux and Windows environments, virtualized infrastructure (Proxmox, Docker, VMs), and network operations across distributed sites.
- Proficient in process automation and workflow orchestration using Python, Bash, n8n, SQL/MySQL, and Elasticsearch/ELK telemetry.
- Skilled in bridging enterprise IT systems with industrial automation (PLC data acquisition, IoT sensors, Modbus/Ethernet protocols), supporting cross-border teams across Europe.

Technical Skills

- **IT Infrastructure & Virtualization** – Linux (Debian, Ubuntu, RHEL), Windows Server, Proxmox VE, KVM, Docker, Hyper-V, Network Administration (LAN/WAN, DNS, DHCP, VLAN, VPN)
- **Scripting & Automation** – Python, Bash, n8n Workflows, PowerShell, REST APIs, Webhooks, Cron/Task Schedulers
- **Data & Observability** – MySQL, PostgreSQL, Elasticsearch (Elastic Stack), Logstash, Kibana, Time-Series Logging, Grafana
- **Industrial Integration & IoT** – PLC/SCADA Interfaces, Industrial IoT Sensors, Modbus, MQTT, OPC UA, Hardware-IT Gateways
- **Support & Tools** – User Support, Fleet & Hardware Management, Git, CI/CD, Jira, System Backup & Disaster Recovery

Visa & Language

- **Language** – English (Fluent / Professional), Italian (Conversational / Intermediate), Hindi (Native), Spanish (Basic)
- **Work Authorization** – European Long Term Residence Permit (No Visa Sponsorship required). Driving License (Patente B). Available for travel.

Professional Experience

FlowSpace.co — *IT Infrastructure & Automation Lead*
London, UK / Remote — *Mar 2024 – Ongoing*

- **Infrastructure Administration & Virtualization:**
  - Administered hybrid Linux/Windows server environments and virtualized clusters (Proxmox, containerized microservices), maintaining 99.9% system uptime.
  - Configured and secured site-to-site VPNs, network interfaces, DNS, and automated snapshot backup routines for disaster recovery.
  - Managed fleet provisioning, user access control, remote diagnostic support, and operational troubleshooting for international stakeholders.
- **Automation & Workflow Engineering:**
  - Developed Python automation scripts and n8n integration pipelines connecting internal databases, REST endpoints, and automated alerting services.
  - Built centralized logging and observability pipelines using Elasticsearch and MySQL to track infrastructure health and job queues.
  - Coordinated cross-functional IT operations with remote engineering teams across the UK and Europe.
- *Tools: Linux, Windows, Proxmox, Python, n8n, MySQL, Elastic, Docker, Bash, Git*

Urlink — *Systems Automation Engineer*
Milan, Italy — *Jul 2023 – Feb 2024*

- Implemented automated data pipelines linking industrial field equipment (PLCs, environmental sensors, IoT gateways) with central IT databases.
- Handled on-site IT hardware configuration, network cabling, device provisioning, and end-user technical support for industrial clients.
- Monitored relational database performance (MySQL) and automated daily backup verification routines.

UltraStrategy *IT & Systems Automation Specialist*
Remote, Germany *Sep 2022 – Jun 2023*

- Developed Python and shell automation scripts for recurring sysadmin tasks, system diagnostics, and reporting.
- Maintained virtual development environments and assisted with cross-site network and application troubleshooting.

Education

Politecnico di Milano *M.Sc. in Management Engineering (Digital Business & ICT)*
Milan, Italy *2020 – 2023*

Thapar Institute of Engineering and Technology
B.E. in Mechanical Engineering
Punjab, India *2014 – 2018*
