Prabhavit Gupta

Artificial Intelligence Engineer: Agentic Systems, LLM Pipelines & APIs

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy
(Open to Relocation to Singapore)

Summary

Artificial Intelligence Engineer specializing in production agentic systems, LLM orchestration, and enterprise API integrations. Experience deploying multi-step autonomous workflows with human-in-the-loop validation, multi-format document ingestion pipelines, and resilient backend services. At FlowSpace, owned platform architecture, migrated a live marketplace off a legacy stack to Next.js and Laravel (scaling to 4,500+ users), built automated data extraction pipelines (900+ listings drafted), and deployed customer support agents on live platform data. Proficient in Python, TypeScript, Node.js, Claude API, OpenAI, RAG architectures, and test-driven reliability.

Skills

- **Artificial Intelligence & Agentic Systems:** Autonomous agents, LLM APIs (Claude, OpenAI), tool calling, Model Context Protocol (MCP), RAG architectures, prompt engineering, confidence-based escalation, human-in-the-loop review, n8n, Eden AI
- **Enterprise APIs & Backend Engineering:** REST APIs, OpenAPI/Swagger specifications, webhooks, asynchronous data pipelines, schema validation, third-party integrations (OfficeRnD, Nexudus, Google APIs, CRM), PostgreSQL, Supabase, Laravel (PHP)
- **Languages & Software Engineering:** Python, TypeScript, JavaScript, Node.js, Next.js, distributed system fundamentals, Docker, CI/CD, Git/GitHub
- **Testing, Reliability & Governance:** Playwright, Postman, contract testing, unit testing, automated verification, observability (logging, metrics, tracing), fault-tolerant fallbacks, AI safety and evaluation

Experience

FlowSpace.co — **Mar 2024 - Aug 2026**
Lead Developer & AI Engineer (Full-time, Freelance) — *London, UK (remote)*

- Architected and deployed an AI document ingestion pipeline (n8n, Claude API, TypeScript) extracting unstructured data from PDF, spreadsheet, image, and web brochures into validated schemas with human-in-the-loop review; 900+ listings drafted.
- Shipped conversational AI support agents querying live platform databases, incorporating confidence scoring thresholds and deterministic fallback paths that escalate ambiguous inquiries to human specialists.
- Led core platform migration off a legacy stack to modern Next.js and Laravel (PostgreSQL), scaling active users from 2,000 to 4,500+ without downtime, while engineering automated CRM lead routing and enrichment pipelines.
- Engineered bidirectional REST API and webhook integrations with property management and booking systems (OfficeRnD, Nexudus), establishing robust data synchronization, schema validation, and fault-tolerant error handling.

Get2Germany.com — **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) — *Berlin, Germany (remote)*

Integrated Google APIs and built custom AI data extraction and matching pipelines in n8n to automate candidate placement workflows.

Clubee.com — **Sep 2023 - Aug 2024**
Developer & QA (Full-time, Freelance) — *Foetz, Luxembourg (remote)*

Integrated core platform REST APIs across frontend interfaces, executed unit and integration testing, and built administrative federation tools.

Tractionboard.co — **Aug 2023 - Oct 2023**
Developer (Internship) — *Utrecht, Netherlands (remote)*

Implemented OpenAI API integrations and automated SendGrid messaging workflows, designing responsive web components and debugging features.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine converting unstructured multi-format documents (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Urlink** (Apr 2025 - Jul 2025): Project Manager & AI Developer; managed stakeholder requirements, built core application logic, and shipped automated workflows using Next.js and Supabase.
- **UltraStrategy** (Dec 2024 - May 2025): AI Automation Developer; built an automated CV-parsing and LLM data extraction pipeline using n8n and Eden AI, serving multi-profile enterprise workflows.

Education & Certifications

Ca' Foscari University of Venice — Oct 2020 - Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to Building AI Agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: Italian EU Long Term Residence Permit (immediate availability; open to relocation to Singapore or remote contracting via Partita IVA). **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
