Prabhavit Gupta

AI Engineer: Copilots, Enterprise Automation & Agentic Systems

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice / Milan, Italy

Summary

AI Engineer with 3+ years of experience designing, building, and deploying production conversational agents, enterprise automations, and scalable LLM pipelines. Certified across Microsoft Copilot Studio, Power Automate, and agentic AI architectures, with deep expertise bridging foundational models (Azure OpenAI, Claude) with enterprise operational systems, relational databases, and Snowflake data pipelines. Proven track record leading end-to-end technical lifecycles, migrating platforms to modern stacks scaling from 2,000 to 4,500+ users, and championing responsible AI guardrails, latency SLOs, and human-in-the-loop validation.

Skills

- **Microsoft AI Ecosystem & Copilots:** Microsoft Copilot Studio, custom copilots, conversational agents, Microsoft Power Automate, Azure AI Foundry, Azure OpenAI, Azure AI Search, Prompt Flow, RAG architectures, prompt chaining, responsible AI governance
- **Autonomous Agents & Automation:** Event-driven workflow orchestration, n8n, Make, tool calling, confidence scoring, deterministic fallback routing, human-in-the-loop review, automated exception handling, agent evaluation benchmarks
- **Languages, Data & Backend:** Python (FastAPI, data extraction, scripting), TypeScript, SQL, Snowflake and Cortex AI integration readiness, RESTful APIs, OpenAPI contracts, webhooks, PostgreSQL, Supabase, Next.js, Node.js, Laravel, Docker
- **Engineering Rigor & Delivery:** Full lifecycle technical leadership, legacy platform migration, Playwright automated testing, Postman contract testing, CI/CD, Git, system logging and observability, inference latency and token cost optimization

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Engineer (Full-time, Freelance) *London, UK (Remote)*

- Architected and deployed an end-to-end multi-format AI document ingestion pipeline (Claude, TypeScript, n8n) extracting unstructured data from complex PDFs, websites, and spreadsheets into validated JSON schemas; 900+ verified listings processed.
- Shipped autonomous conversational support agents querying live platform records, enforcing confidence-scoring thresholds and deterministic fallback paths to human operators for high-reliability service.
- Built enterprise CRM and operational automation pipelines connecting platform APIs, lead enrichment, intelligent routing, and external booking systems (OfficeRnD, Nexudus) with robust error handling and synchronization.
- Led platform and database migration off a legacy stack to a modern Next.js and Laravel (PostgreSQL) architecture, scaling active users from 2,000 to 4,500+ without downtime.
- Established automated test suites (Playwright) and engineering standards across the internal dev team and external partners.

UltraStrategy.com **Dec 2024 - May 2025**
AI Automation Developer (Collaborator) *France (Remote)*

- Engineered a high-throughput LLM CV-parsing and data extraction pipeline using n8n and Eden AI, structuring multi-page unstructured documents into normalized, schema-validated JSON records across diverse profiles.

Urlink **Apr 2025 - Jul 2025**
Project Manager & AI-Assisted Developer (Freelance) *Barcelona, Spain (Remote)*

- Directed technical architecture and built core application logic and client automations leveraging AI-assisted engineering tools (Claude Code), Next.js, and Supabase.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (Remote)*

- Built automated data collection and validation pipelines using n8n and Google APIs, streamlining database synchronization and candidate matching logic.

Projects & Certifications

- **Open Source LLM Document Parser (github.com/prab-gupta/llm-doc-parser):** Production-grade document-to-JSON pipeline extracting structured data using LLMs, schema validation, and automated error recovery.
- **Certifications:** Microsoft Copilot Studio Agent Academy • Microsoft: Building AI Agents • Microsoft Power Automate • Tray.AI Build Practitioner

Education

Ca' Foscari University of Venice Oct 2020 - Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship) Venice, Italy
Core focus: Analytical logic, systems thinking, decision theory, economic modeling, and technology innovation.

Work Authorization: Italian EU Long Term Residence Permit (full Italian and EU work rights with zero sponsorship required; available immediately for hybrid presence in Milan). **Languages:** English (fluent C2), Italian (conversational), Hindi (native).
