Profile

Forward deployed engineer experienced in embedding with enterprise customers to translate complex requirements into production-ready software and infrastructure. Adept at Python scripting, CI/CD automation, Docker, and bridging the gap between technical execution and customer constraints. Ready to tackle Kubernetes and Terraform to ensure smooth, secure AI platform deployments inside customer environments.

Core Competencies

- **Infrastructure & Cloud Integration:** Python, CI/CD, Docker, GitHub Actions, complex system integrations, cloud environments.
- **DevOps & Operations Mindset:** Automation scripting, API integration, release tooling, troubleshooting complex architectural challenges, strict schema and security validations.
- **Customer-Facing Execution:** Embedded customer collaboration, owning deployment cycles end-to-end, translating ambiguous enterprise constraints into technical deliverables.

Professional Experience

FlowSpace.co **London, UK (Remote)**

Forward Deployed AI Engineer (Freelance) *Mar 2024 - Present*

- Embedded with business units to directly interface with stakeholders, bridging domain requirements with technical infrastructure to drive product adoption.
- Designed and deployed resilient architectures for AI listing pipelines, utilizing Python and Docker to ingest diverse document formats and push validated data to production.
- Automated complex workflows via GitHub Actions and robust CI/CD practices, ensuring high reliability.
- Integrated third-party APIs and enterprise platforms securely, resolving complex architectural challenges across legacy systems.
- Collaborated on defining security and schema validation controls for AI outputs in production.

Urlink **Barcelona, Spain**

Full-Stack AI Developer (Freelance) *Apr 2025 - Jul 2025*

- Partnered directly with the client to deploy and adapt platform solutions, shipping features with Next.js and Supabase while iterating rapidly based on customer constraints.

UltraStrategy.com **France**

AI Automation Engineer (Collaborator) *Dec 2024 - May 2025*

- Delivered automation pipelines and API integrations, optimizing operational workflows and system deployments.

Get2Germany.com **Berlin, Germany**

Automation Developer (Part-time) *Jan 2024 - May 2024*

- Developed tools utilizing Python and APIs to automate internal data processing and workflows, focusing on robust execution and observability.

Clubee.com **Foetz, Luxembourg**

Full-Stack Developer & QA (Freelance) *Sep 2023 - Aug 2024*

- Maintained and integrated complex REST APIs and established rigorous testing protocols to guarantee reliability and secure operation in production environments.

Education

Ca' Foscari University **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*

Certifications

Tray.AI Build Practitioner (Sep 2024), Microsoft Copilot Studio Agent Academy

Work Authorization & Languages

Work authorization: European Long Term Residence Permit (Italy), no sponsorship required.
Languages: English (Professional), Italian (Beginner - currently improving, willing to learn for Italian enterprise customers), Hindi (Native).
