Prabhavit Gupta

Forward Deployed AI Engineer: LLM Systems, Enterprise Integrations & Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Hybrid Milan / Relocation)

Summary

Forward deployed AI engineer who embeds directly with enterprise clients to translate business and operational challenges into production-ready AI solutions. Proven track record designing and shipping multi-step agentic workflows, RAG architectures, and automated data extraction pipelines with human-in-the-loop validation. At FlowSpace, engineered an end-to-end multi-format ingestion pipeline (900+ listings drafted), deployed live customer-facing support agents with confidence-based escalation, and led the platform migration off a legacy stack to Next.js and Laravel (scaling 2,000 to 4,500+ users). Skilled in Python, TypeScript, LangChain/LangGraph patterns, React/Next.js, and integrating AI into complex client enterprise systems.

Skills

- **Agentic AI & LLM Orchestration:** Multi-step agent orchestration, LangChain, LangGraph patterns, tool and function calling, structured JSON output parsing (Pydantic), RAG architectures (vector search, embeddings, retrieval quality), Claude Code, Anthropic Claude API, OpenAI API, prompt engineering, confidence scoring, guardrails, human-in-the-loop review, rapid prototyping
- **Enterprise Integrations & Backend:** Python (FastAPI, data pipelines), TypeScript, Node.js, Next.js, React, Laravel (PHP), REST APIs, OpenAPI, webhooks, asynchronous jobs, retry and rate-limit handling, PostgreSQL, Supabase, third-party enterprise integrations (CRM, ERP, booking systems, Google APIs)
- **Forward-Deployed Delivery & Architecture:** Embedded client discovery to production rollout, translating business requirements into scalable technical systems, deterministic vs. autonomous system design, legacy platform migration, Docker, CI/CD, Git/GitHub, cloud deployments
- **Testing, Reliability & Observability:** Automated testing (Playwright, Jest, Postman), LLM evaluation harnesses (accuracy, latency, hallucination tracking), structured logging, error escalation, UAT, production monitoring

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Architected and shipped an AI listing pipeline (Python, TypeScript, Claude API, n8n) orchestrating multi-step LLM tool use and structured parsing to extract data from multi-format brochures (PDF, web, spreadsheet, image) with human-in-the-loop review; 900+ listings drafted.
- Designed human-in-the-loop approval workflows with strict schema validation and error-handling escalation paths, enabling non-technical stakeholders to safely review and approve AI outputs before deployment.
- Deployed customer-facing support AI agents operating against live database records, implementing confidence scoring thresholds and automated escalation to human staff.
- Architected bidirectional enterprise integrations with booking platforms (OfficeRnD, Nexudus) and CRM pipelines, handling rate limits, webhooks, and retry logic across service boundaries.
- Led platform migration off a legacy stack onto a coded Next.js and Laravel (PostgreSQL) architecture, executing zero-downtime cutover while scaling active users from 2,000 to 4,500+.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

Built automated ETL data collection and validation pipelines using n8n and Google APIs, streamlining database synchronization and candidate matching logic.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg (remote)*

Integrated core REST APIs across frontend modules, established automated unit test suites, and executed QA protocols for federation dashboards.

Tractionboard.co **Aug 2023 - Oct 2023**
Developer (Internship) *Utrecht, Netherlands (remote)*

Integrated OpenAI/ChatGPT and Sendgrid APIs, designed responsive frontend interfaces, and debugged data flow issues in production.

Selected Projects

- **LLM Document Parser** (github.com/prab-gupta/llm-doc-parser): Open-source engine demonstrating multi-format document parsing (PDF, image, text) into strictly typed, validated JSON structures with automated error recovery.
- **Urlink** (Apr 2025 - Jul 2025): Project Manager & AI-Assisted Developer; worked directly with client leadership to map requirements, build platform logic, and deploy automated workflows using Next.js and Supabase.
- **UltraStrategy** (Dec 2024 - May 2025): AI Automation Developer; built an automated CV-parsing and structured extraction pipeline using n8n and Eden AI across diverse customer data profiles.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Building AI Agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Work authorization: Italian EU Long Term Residence Permit (unrestricted EU work rights, no visa sponsorship needed in Italy or the EU; immediate availability). **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
