AI Engineer specializing in deploying and integrating agentic workflows for production environments. Experienced in full-stack development with TypeScript, Python, and React, alongside building AI agents that operate reliably against live data. Proven ability to own the end-to-end deployment of AI solutions, translating complex client requirements into scalable system integrations.

Core Competencies

- **Programming Languages & Frameworks:** TypeScript, React, Python, FastAPI, Next.js, Node.js
- **AI & Agentic Systems:** LLM integration, RAG, confidence-based escalation, prompt engineering, Claude, OpenAI
- **Backend & Database:** PostgreSQL, REST APIs, Supabase, webhooks
- **Tools & Operations:** Playwright testing, GitHub, Postman, production system debugging

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer *Mar 2024 - Aug 2026*

- Designed and deployed a production AI listing bot that automates data extraction from multi-format brochures into structured JSON using Claude and TypeScript, scaling platform listings.
- Built and maintained AI support agents integrated with live platform data, implementing confidence-based escalation to human operators for high reliability.
- Led the end-to-end migration of a live marketplace to a modern Next.js and backend stack, effectively scaling the platform from 2,000 to over 4,500 active users.
- Debugged and managed live production systems, successfully integrating third-party APIs to automate core CRM and booking workflows.

UltraStrategy & Urlink **Remote**

AI Automation Developer (Freelance) *Dec 2024 - Jul 2025*

- Engineered a robust CV parsing LLM pipeline using Python and automation tools to extract structured data for a specialized user platform.
- Acted as a technical project manager, directly gathering client requirements and implementing custom client-driven automations and API integrations.

Get2Germany.com **Berlin, Germany**

Developer *Jan 2024 - May 2024*

- Integrated Google APIs and built AI tools to automate data discovery, optimizing database performance for scalability.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*
