# Prabhavit Gupta

Venice, Italy
+39 351 610 7807 • prabhavitg@gmail.com • LinkedIn, GitHub

Senior Forward Deployed Engineer with expertise in bridging AI strategy and production execution. Proven track record in orchestrating multi-step agentic systems and embedding directly into client environments to turn complex technical challenges into scalable, production-ready AI solutions. Adept at handling end-to-end platform delivery, rapid prototyping, and integrating robust LLM pipelines with enterprise infrastructure across cloud platforms.

## Core Competencies

- **Agentic AI & Deployment:** Multi-step LLM orchestration, structured output parsing, RAG, EcliptOS-style agent architectures, and integrating AI into enterprise workflows.
- **Infrastructure & Cloud:** Production-grade system deployments, Kubernetes, Docker, AWS, GCP, Azure, and automated CI/CD for reliable AI delivery.
- **Client Enablement:** End-to-end platform delivery, technical stakeholder collaboration, rapid troubleshooting, and guiding adoption of AI-driven tools.
- **Software Engineering:** Python, TypeScript, React/Next.js, SQL, secure API design, human-in-the-loop governance, and enterprise data integration.

## Professional Experience

**FlowSpace.co** **London, UK (Remote)**

*Full-Stack & AI Engineer (Freelance)* *Mar 2024 - Aug 2026*

- Built and deployed an enterprise AI pipeline orchestrating multi-step LLM agents and RAG to ingest documents across formats into scalable production systems.
- Embedded directly into customer environments to build integrations against live APIs and booking systems, managing infrastructure, webhooks, and retry logic.
- Designed robust human-in-the-loop governance workflows with schema validation, enabling safe adoption and deployment of AI outputs by stakeholders.
- Co-led the migration of a live marketplace to a robust backend architecture, monitoring latency and reliability, scaling the active user base from 2,000 to over 4,500.

**Get2Germany.com** **Berlin, Germany**

*Developer & Automation Specialist* *Jan 2024 - May 2024*

- Delivered rapid automation solutions integrating Google APIs and AI extraction tools, troubleshooting system performance to streamline field workflows.

**Clubee.com** **Foetz, Luxembourg**

*Developer & QA (Freelance)* *Sep 2023 - Aug 2024*

- Executed frontend API integrations, automated unit testing, and deployed QA processes to validate system stability across service boundaries.

## Independent Projects

**UltraStrategy**

*AI Automation Developer* *2024 - 2025*

- Engineered a custom data extraction engine using LLMs, focusing on strict schema validation and production readiness.

**Urlink**

*Project Manager & Developer* *2025*

- Collaborated with clients to architect scalable application logic using Next.js and Supabase, translating business needs into technical execution.

## Education & Certifications

**Ca' Foscari University** **Venice, Italy**

*BA Philosophy, International Studies & Economics* *Oct 2020 - Jun 2024*

Minor in Entrepreneurship.

*Tray.AI Build Practitioner & Microsoft Copilot Studio Agent Academy* *Sep 2024*
