Prabhavit Gupta

Software Engineer, ML Platforms and Tooling

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy
(Relocating to Berlin)

Summary

Software engineer with over 3 years of experience developing internal developer platforms, experimentation tooling, and high-reliability web applications. Proven track record of building tools and data pipelines that reduce researcher cognitive load and streamline machine learning workflows. At FlowSpace, owned platform architecture, migrated a live marketplace off a legacy stack to Next.js and Laravel (scaling to 4,500+ users), built automated data extraction pipelines with human-in-the-loop review (900+ entities processed), and deployed live support agents. Core stack: Python, FastAPI, TypeScript, React, Docker, PostgreSQL, and CI/CD pipelines.

Skills

- **ML Tooling & Experimentation Platforms:** Python, FastAPI, internal developer platforms, experiment dashboards, data validation pipelines, human-in-the-loop workflows, n8n, automated testing, Claude Code agentic workflows
- **Full Stack & Platform Engineering:** TypeScript, React, Next.js, Node.js, Laravel (PHP), REST APIs, webhooks, PostgreSQL, MongoDB, Supabase, state management, schema validation, telemetry (Prometheus, Grafana basics)
- **Systems, DevOps & Reliability:** Docker, containerized workflows, Kubernetes basics, cloud infrastructure (Azure, GCP), Linux/Ubuntu, GitHub Actions, Playwright, automated QA, API contracts, complexity management

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (remote)*

- Migrated a live marketplace off a legacy stack to Next.js and Laravel, establishing clean API abstractions, repository standards, and scaling active users from 2,000 to 4,500+ with continuous uptime.
- Built an automated ingestion pipeline (Python, TypeScript, Claude API, n8n) parsing unstructured multi-format data (PDF, spreadsheets, web) into structured backend schemas with human-in-the-loop validation; 900+ entities drafted.
- Developed internal dashboards and operational tools in React and TypeScript, providing real-time visibility into pipeline throughput, execution states, and data anomalies for engineering and operations.
- Deployed AI support agents operating over live operational databases with automated confidence scoring and graceful escalation to human staff.
- Engineered bidirectional REST and webhook integrations (OfficeRnD, Nexudus, CRM) with comprehensive error handling.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built automation tools in n8n and Python for data extraction and cataloging, and optimized relational database queries.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated Clubee REST APIs across web frontends, developed federation dashboard tools, and built automated unit testing and QA suites.

Tractionboard.co **Aug 2023 - Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated OpenAI and Sendgrid APIs, built responsive frontend interfaces, and implemented automated error tracking and logging.

Projects & Open Source

- **llm-doc-parser** (Open Source), Author. Created a runnable Python pipeline converting unstructured documents into structured, validated JSON with schema enforcement and deterministic error recovery.
- **Urlink** (2025), Project Manager & AI-Assisted Developer. Built platform architecture and client logic with Next.js, Supabase, and Netlify; automated continuous integration and delivery pipelines.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built an automated CV-parsing tool (LLM data extraction) with n8n and Eden AI, delivering validated JSON schemas for downstream services.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 - Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy; unrestricted EU work authorization across Germany, 0 sponsorship needed). Immediate availability; eager for hybrid on-site presence in Berlin. **Languages:** English (fluent C2), Hindi (native), Italian (conversational).
