Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

Career Summary

- Automation Engineer with dual degrees in Mechanical and Management Engineering (Politecnico di Milano), experienced in automated machinery, process control, and systems integration.
- Solid foundation in industrial automation, PLC/HMI logic, hardware-in-the-loop testing, and field commissioning for regulated production lines.
- Proven record of writing diagnostic test suites, coordinating technical validation on customer sites, and ensuring high reliability across packaging and industrial workflows.

Technical Skills

- **Industrial Automation** – PLC Programming Logic, HMI Interfaces, Automated Packaging Lines, Commissioning & Collaudo, Sensor Integration
- **Engineering & Quality** – Mechanical Systems Design, Quality Assurance, Pharma & Medical Packaging Standards, Technical Support
- **Software & Scripting** – Python, C++, Bash, SQL, Git, Linux, Automated Test Suites
- **Protocols & Controls** – Modbus, Industrial Ethernet, REST APIs, Documentation, Root Cause Analysis

Visa & Language

- **Language** – Italian (Conversational / Intermediate), English (Fluent / Professional), Hindi (Native)
- **Work Authorization** – European Long Term Residence Permit - No Sponsorship required. Driving License (Patente B).

Professional Experience

FlowSpace.co — *Automation Lead Developer (Full time, Freelance)*
London, UK — *Mar 2024 – Ongoing*

- **Automation & Systems Engineering:**
  - Designed automated process monitoring pipelines and integration test harnesses, verifying operational parameters across production services.
  - Developed real-time telemetry loggers and exception handling routines to detect hardware/software synchronization anomalies.
  - Authored technical commissioning documentation, system operating procedures, and diagnostic guidelines for field engineers.
- **Quality Assurance & Operations:**
  - Supervised continuous system upgrades, maintaining 99.9% availability across core automated platforms.
  - Executed comprehensive validation runs, analyzing error logs and coordinating with hardware vendors for prompt issue remediation.
- *Tools: Python, Linux, Bash, Automated Testing, REST APIs, Docker, Git, Jira*

Urlink — *Systems Automation Engineer*
Milan, Italy — *Jul 2023 – Feb 2024*

- Engineered automated verification scripts to validate data acquisition from connected industrial machinery and field sensors.
- Assisted engineering teams during system acceptance testing (collaudo) and customer site deployment routines.
- Documented equipment specifications, interface protocols, and troubleshooting procedures for client technical staff.

UltraStrategy — *Automation Developer*
Remote, Germany — *Sep 2022 – Jun 2023*

- Built automated data collection scripts monitoring machinery performance and throughput metrics across manufacturing sites.

- Automated routine diagnostic checks and generated structured compliance reports for quality audits.

Education

Politecnico di Milano — *M.Sc. in Management Engineering (Digital Business & ICT)*
Milan, Italy — *2020 – 2023*

Thapar Institute of Engineering and Technology — *B.E. in Mechanical Engineering*
Punjab, India — *2014 – 2018*
