Prabhavit Gupta

Venice, Italy
+39 351 610 7807 • prabhavitg@gmail.com • LinkedIn, GitHub

Pragmatic, product-minded engineering professional experienced in driving technical discovery and deploying complex software systems in fast-moving environments. Proven track record of bridging the gap between technical and non-technical stakeholders, architecting API integrations, and leading technical evaluations. Strong executor across the stack (REST APIs, SDKs, webhooks, JSON, Postman) with a focus on delivering compelling demonstrations, resolving technical objections, and ensuring successful proof-of-concept outcomes alongside commercial teams.

Core Competencies

- **Solutions Engineering & Pre-Sales**: Technical discovery sessions, product demonstrations, managing proof-of-concept (PoC) engagements, resolving technical objections, partnering with commercial teams.
- **Integration Architecture**: REST APIs, SDKs, webhooks, JSON, modern integration architectures, Postman API testing, low-latency data exchange.
- **Client Deployment & Communication**: Translating complex technical capabilities into business value for enterprise stakeholders, requirements mapping, proactive stakeholder management.
- **Systems & Technologies**: TypeScript, Python, Node.js, SQL, robust webhook handling, retry logic, automated testing.

Professional Experience

FlowSpace.co — **London, UK (Remote)**
Solutions & Integration Engineer (Freelance) — *Mar 2024 - Aug 2026*

- Built and delivered technical product demonstrations and proof-of-concepts, translating complex data ingestion requirements into concrete business value for client leadership.
- Architected and maintained enterprise API integrations, implementing robust webhook handling, REST APIs, and JSON validation to ensure highly reliable data flow.
- Managed technical discovery sessions to understand customer challenges and deployed complex integration systems with strict schema validation.
- Partnered with stakeholders to navigate technical evaluations, successfully leading the platform migration onto a new stack and executing zero-downtime cutovers for 4,500+ users.

Client Engagements — **Remote**
Technical Consultant & Systems Engineer — *Jan 2024 - Jul 2025*

- **Urlink** (Apr 2025 - Jul 2025): Managed technical evaluations and mapped operational requirements directly with client leadership, resolving technical objections and deploying automated workflows.
- **UltraStrategy** (Dec 2024 - May 2025): Engineered data extraction pipelines, conducting hands-on technical discovery and utilizing API integration architectures for fast-moving environments.
- **Get2Germany.com** (Jan 2024 - May 2024): Integrated third-party REST APIs and optimized system architectures, successfully translating complex backend capabilities to end-user functionality.

Education

Ca' Foscari University of Venice — **Venice, Italy**
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship) — *Oct 2020 - Jun 2024*

Certifications & Additional Information

- **Certifications**: Microsoft Copilot Studio Agent Academy, Microsoft AI Agents, Microsoft Power Automate, Tray.AI Build Practitioner.
- **Work Authorization**: EU Long Term Residence Permit (Italy). Open to EMEA remote work and necessary travel.
- **Languages**: English (Fluent/C1), Hindi (Native), Italian (Beginner).
