Professional Summary

Senior Fullstack Developer with extensive experience building scalable web applications using React, Angular, Node.js, and NestJS. Adept at designing robust RESTful APIs and managing cloud infrastructure on AWS. Strong background in both relational and non-relational databases, with a proven track record of using Azure DevOps for project management and CI/CD pipelines. Highly adaptable and experienced in delivering high-quality software solutions in remote environments.

Technical Skills

- **Frontend:** React, Angular, TypeScript, JavaScript, HTML5, CSS3, RxJS
- **Backend:** Node.js, NestJS, C#, .NET Core, Python
- **Databases:** SQL Server, PostgreSQL (Relational), MongoDB, Redis (Non-relational)
- **Cloud & DevOps:** AWS, Docker, Azure DevOps, CI/CD pipelines, Git
- **Tools:** Postman, RESTful APIs, TDD

Experience

Senior Full Stack Developer 2021 – Present
Freelance / Contract Remote

- Designed and developed end-to-end robust web applications using Node.js and NestJS for backend services, coupled with dynamic React and Angular frontend interfaces.
- Built, tested, and integrated secure, scalable RESTful APIs using Postman for validation, reducing data retrieval times by 30%.
- Managed cloud infrastructure utilizing AWS services and containerized applications with Docker to ensure system stability and high availability.
- Utilized Azure DevOps for agile project management, sprint planning, and maintaining efficient CI/CD deployment pipelines.
- Engineered database schemas and optimized queries across both relational (PostgreSQL) and non-relational (Redis, MongoDB) database systems.

Software Engineer 2018 – 2021
Tech Solutions Inc. Milan, Italy (Hybrid)

- Contributed to the development of enterprise-level software systems utilizing modern full-stack frameworks and relational databases.

- Maintained and optimized CI/CD pipelines using Docker and cloud services, decreasing deployment times by 20%.
- Enforced clean code practices and test-driven development (TDD), achieving comprehensive unit test coverage and minimizing production issues.

Education

Master of Science in Computer Science 2018
University of Venice Venice, Italy
