Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

Career Summary

- Automation Engineer with dual degrees in Mechanical Engineering and Management Engineering (Politecnico di Milano), specializing in industrial automation systems and PLC development.
- Solid foundation in Siemens TIA Portal programming (S7-1200 / S7-1500), Siemens HMI design, and field commissioning of automated industrial lines.
- Practical experience configuring industrial networks (PROFINET, PROFIBUS, Modbus TCP/RTU, OPC UA), inverter drives, servo-actuators, and field instrumentation.
- Skilled in reading electrical schematics, diagnosing software/hardware anomalies during collaudo, and drafting comprehensive technical operating procedures.

Technical Skills

- **PLC & HMI Programming** – Siemens TIA Portal (S7-1200, S7-1500), WinCC HMI, Ladder Logic (LAD), Structured Text (SCL), Function Block Diagram (FBD)
- **Industrial Field Networks** – PROFINET, PROFIBUS, Modbus TCP/RTU, OPC UA, Industrial Ethernet, Fieldbus Gateways
- **Drives & Motion Control** – Frequency Inverters, Servo-drives, Stepper Motors, Sensors, Electrical Schematics & Wiring Diagrams
- **Testing & Commissioning** – Plant Commissioning (Collaudo), FAT/SAT Protocols, Software Fault Isolation, Hardware Diagnostics
- **Languages & Tools** – Python, C++, Bash, SQL, Git, Linux, Technical Documentation

Visa & Language

- **Language** – Italian (Conversational / Intermediate), English (Fluent / Professional), Hindi (Native)
- **Work Authorization** – European Long Term Residence Permit (No Visa Sponsorship required). Italian Partita IVA active. Driving License (Patente B). Available for on-site travel and commissioning.

Professional Experience

FlowSpace.co — *Automation & Systems Lead*
London, UK / Remote — *Mar 2024 – Ongoing*

- **Systems Engineering & Diagnostic Tooling:**
  - Designed automated monitoring and testing pipelines for industrial systems and edge devices, verifying data throughput and cycle reliability.
  - Built automated health diagnostics capturing communication timeout events and sensor telemetry anomalies in real time.
  - Formulated technical operating procedures and system documentation for deployment and commissioning teams.
- **Hardware-Software Integration:**
  - Interfaced multi-protocol field devices with central control logic via Modbus and industrial network bridges.
  - Maintained 99.9% uptime across critical operational workflows through proactive troubleshooting and routine firmware verification.
- *Tools: Python, Linux, Bash, Industrial Networks, Modbus, Docker, Git*

Urlink — *Systems Automation Engineer*
Milan, Italy — *Jul 2023 – Feb 2024*

- Assisted in the commissioning and acceptance testing (collaudo) of automated industrial machinery at manufacturing customer facilities.
- Programmed and verified PLC I/O logic, safety interlocks, and sensor feedback loops in compliance with electrical schematics.
- Configured industrial networking switches, drive parameters, and operator panels for reliable field execution.

UltraStrategy *Automation Developer*
Remote, Germany *Sep 2022 – Jun 2023*

- Developed automated scripts monitoring industrial equipment status, cycle times, and operational performance metrics.
- Created automated diagnostic routines summarizing machine health for quality assurance audits.

Education

Politecnico di Milano *M.Sc. in Management Engineering (Digital Business & ICT)*
Milan, Italy *2020 – 2023*

Thapar Institute of Engineering and Technology
B.E. in Mechanical Engineering
Punjab, India *2014 – 2018*
