Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

Career Summary

- Integration & Automation Engineer with hands-on experience designing robust system-to-system integrations, event-driven architectures, and scalable API workflows.
- Proven expertise in REST/webhook integrations, M2M authentication (OAuth2, JWT), and message brokering patterns ensuring data integrity and fault tolerance.
- Track record of orchestrating cross-platform data synchronization, automated retry/logging strategies, and OpenAPI-compliant contract documentation across production environments.

Technical Skills

- **Integration & Architecture** – REST APIs, SOAP, Webhooks, Message Brokers (RabbitMQ, Kafka), Event-Driven Patterns, OpenAPI / Swagger
- **Security & Protocols** – OAuth2 Client Credentials, JWT, M2M Authentication, HTTPS/TLS, Error Handling & Retry Logic
- **Languages & Tools** – Python, TypeScript, Postman, Docker, Git, SQL, n8n, Playwright
- **Process & Standards** – API Contract Design, Microservices, CI/CD, Documentation, xAPI/LRS Data Flows

Visa & Language

- **Language** – Hindi (Native), English (Professional), Italian (Conversational / Intermediate)
- **Work Authorization** – European Long Term Residence Permit - No Sponsorship required.

Professional Experience

FlowSpace.co — *Lead Integration Developer (Full time, Freelance)*
London, UK — *Mar 2024 – Ongoing*

- **Technical Responsibilities:**
  - Designed and deployed resilient REST API integrations between booking platforms (Office Rnd, Nexudus) and central operational database.
  - Built webhook-based asynchronous event processing pipelines with exponential backoff retry mechanisms and dead-letter handling.
  - Enforced secure M2M authentication protocols utilizing OAuth2 client credentials and signed JWT tokens for external partner services.
  - Authored OpenAPI specifications and automated integration tests in Postman to ensure backward-compatible interface contracts.
- **Product & Operational Responsibilities:**
  - Scaled platform from 2,000 to 4,500+ active users while maintaining 99.9% integration uptime across external provider webhooks.
  - Documented end-to-end data schemas and API interface contracts for engineering and agency teams.
- *Tools: TypeScript, Python, Postman, Webhooks, OAuth2, JWT, Docker, Playwright, Jira*

Urlink — *Fullstack Integration Engineer*
Milan, Italy — *Jul 2023 – Feb 2024*

- Engineered bi-directional synchronization services between external CRM/ERP APIs and internal PostgreSQL databases.
- Implemented event-driven message dispatching using RabbitMQ queues, decoupling high-throughput user actions from third-party syncs.
- Standardized logging and monitoring dashboards for API error tracking, reducing payload delivery failures by 35%.

UltraStrategy — *Automation & Systems Developer*
Remote, Germany — *Sep 2022 – Jun 2023*

- Developed modular integration middleware connecting enterprise analytics tools via RESTful endpoints and secure token exchange.
- Automated ETL data pipelines across cloud endpoints, validating payload integrity and enforcing schema validation.

Education

Politecnico di Milano — *M.Sc. in Management Engineering (Digital Business & ICT)*
Milan, Italy — *2020 – 2023*

Thapar Institute of Engineering and Technology — *B.E. in Mechanical Engineering*
Punjab, India — *2014 – 2018*
