Technical leader and Forward Deployed Engineer with a track record of bridging the gap between complex customer problems and engineering execution. Experienced in translating ambiguous requirements into precise technical specs, prioritizing engineering backlogs, and leading end-to-end platform integrations. Strong technical fluency in APIs, data models, and troubleshooting live production systems to ensure seamless customer experiences.

Core Competencies

- **Customer & Technical Leadership:** Technical project management, requirements gathering, roadmap prioritization, cross-functional communication
- **Programming & Frameworks:** TypeScript, Python, React, Next.js, Node.js
- **Data Systems & Integration:** API design, REST webhooks, PostgreSQL, Supabase, data migrations, CRM integrations
- **Operations & AI:** LLM data pipelines, production debugging, prompt engineering, Claude, OpenAI

Professional Experience

FlowSpace.co **London, UK (Remote)**

Lead Developer *Mar 2024 - Aug 2026*

- Served as the primary technical bridge, translating client integration needs into precise data model implications and well-scoped engineering asks.
- Led the end-to-end migration of a live marketplace to a Next.js stack, managing the engineering backlog and balancing urgent needs to scale the platform from 2,000 to over 4,500 active users.
- Built repeatable processes for third-party API integrations, automating core CRM workflows and resolving customer-reported issues efficiently.
- Designed and deployed a production AI pipeline extracting structured data from diverse formats, showcasing technical fluency in data models and schema design.

UltraStrategy & Urlink **Remote**

Technical Project Manager & AI Automation Developer *Dec 2024 - Jul 2025*

- Acted as a forward-deployed technical liaison, directly gathering complex requirements from external stakeholders and translating them into clear execution specs.
- Engineered and delivered a robust CV parsing pipeline and custom automation tools to address urgent client data processing bottlenecks.
- Built durable relationships with customers throughout implementation and troubleshooting, ensuring the final technical deliverables aligned with business goals.

Get2Germany.com **Berlin, Germany**

Developer *Jan 2024 - May 2024*

- Integrated Google APIs and developed automation tools to streamline data discovery and improve database query efficiency.

Education

Ca' Foscari University of Venice **Venice, Italy**

BA Philosophy, International Studies & Economics *Oct 2020 - Jun 2024*
