Prabhavit Gupta

Applied AI Engineer

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

I design and build agentic AI systems in production: tool-calling, context management, orchestration pipelines and human-in-the-loop feedback loops. At FlowSpace I built the AI layer for a live marketplace, including an agentic listing pipeline that takes unstructured documents, extracts structured data via LLMs, and pushes verified listings after human review, plus support agents that query live data and escalate on low confidence. I ship in TypeScript and Node.js, work with PostgreSQL and Supabase, and use Claude Code as my primary development tool.

Skills

- **Agentic AI & orchestration:** AI agents built and operated in production, tool-calling pipelines, context and memory management, human-in-the-loop review, evals, LLM APIs (OpenAI, Claude), RAG, prompt engineering, n8n workflow orchestration
- **Languages & frameworks:** TypeScript, JavaScript, Next.js, React, Node.js, Python, Laravel (PHP)
- **Data & integrations:** PostgreSQL, Supabase, REST APIs, webhooks, third-party integrations (Attio, Amplemarket, OfficeRnD, Nexudus, Google, Sendgrid), Claude Code
- **Ways of working:** owning problems end to end, shipping and iterating on real-world feedback, working across teams and stakeholders

Experience

FlowSpace.co **Mar 2024 – Aug 2026**

Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an agentic listing pipeline with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), extracts structured data via LLMs, drafts the full listing, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence. Designed the context retrieval and tool-calling layer.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.

Get2Germany.com **Jan 2024 – May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**

Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**

Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.

- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
