Profile

AI Solutions Engineer with deep expertise in designing and deploying real-time data pipelines and AI-powered applications in production environments. Proven track record as a trusted technical advisor, leading complex API integrations, and architecting robust customer-facing solutions. Focused on operationalizing intelligence platforms using Python, SQL, REST/GraphQL APIs, and modern cloud infrastructure to deliver high-impact results.

Core Competencies

- **Languages & Frameworks:** Python, TypeScript, JavaScript, SQL, REST/GraphQL APIs
- **Applied AI & Data:** LLMs (Claude, OpenAI), AI Agents, RAG pipelines, Real-time data pipelines, Prompt Engineering
- **Backend & Integrations:** API architecture, Webhooks, Supabase, CRM integrations, Cloud infrastructure
- **Tools & QA:** Docker, GitHub, Playwright, Postman, human-in-the-loop review

Professional Experience

Lead AI Developer (Freelance) *Mar 2024 – Present*
FlowSpace.co *London, UK (Remote)*

- Architected and deployed an AI-powered pipeline (TypeScript, Python, Claude) that ingests unstructured data to generate structured insights, incorporating human-in-the-loop validation for high reliability.
- Engineered complex REST and GraphQL API integrations with external systems, channeling customer feedback to continuously optimize data pipelines and workflow automations.
- Acted as a trusted technical advisor for stakeholders, leading the end-to-end migration of a live marketplace to a modern architecture, scaling the platform to support 4,500+ active users.

Project Manager & AI Developer (Freelance) *Apr 2025 – Jul 2025*
Urlink *Barcelona, Spain*

- Delivered an AI-native platform leveraging Supabase and advanced LLM logic to execute complex, customer-driven automations.
- Managed the full project lifecycle, collaborating directly with clients to operationalize custom capabilities ahead of schedule.

AI Automation Engineer (Collaborator) *Dec 2024 – May 2025*
UltraStrategy.com *France*

- Designed and deployed robust parsing data pipelines utilizing LLMs to serve a multi-profile user platform in a live environment.

Lead Developer & Automation Specialist (Part-time) *Jan 2024 – May 2024*
Get2Germany.com *Berlin, Germany*

- Integrated complex APIs and built automation tools, streamlining the discovery process and ensuring high-availability data access.

Full-Stack Developer & QA (Freelance) *Sep 2023 – Aug 2024*
Clubee.com *Foetz, Luxembourg*

- Implemented robust API integrations across the stack, developing core domain tools and enforcing quality through rigorous unit testing and QA.

Education

BA Philosophy, International Studies & Economics *Oct 2020 – Jun 2024*
Ca' Foscari University of Venice *Venice, Italy*
Minor in Entrepreneurship.
