Prabhavit Gupta

Forward Deployed AI Engineer - Manager (FS Technology Consulting)

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy
(Ready to relocate to Dublin)

Summary

Hands-on AI engineer and client-embedded technical leader specializing in GenAI, multi-agent orchestration, and enterprise-grade data pipelines. Experienced in bridging complex business requirements with production AI, taking scalable architectures from concept to delivery. At FlowSpace, led technical discovery and deployment of an AI-driven multi-format ingestion pipeline and customer-facing support agents, migrating platform infrastructure for 4,500+ active users with zero downtime. Eager to join EY's FS Technology Consulting practice in Dublin to build reliable, compliant, and transformative AI solutions for financial services clients.

Core Competencies

- **Forward Deployment & Technical Leadership:** Client-facing solution architecture, managing cross-functional engineering alignment, enterprise delivery, requirements translation, rapid prototyping, and edge-case resolution.
- **GenAI & Multi-Agent Orchestration:** RAG architectures, prompt engineering, multi-step agent workflows, Claude API, OpenAI API, structured JSON extraction, confidence scoring, and human-in-the-loop review.
- **Backend & Data Engineering:** Python, TypeScript, Node.js, Next.js, PostgreSQL, REST APIs, asynchronous event queues, retry/rate-limit handling, and robust ETL pipelines.
- **Infrastructure & Reliability:** Docker, CI/CD pipelines, automated testing, production monitoring, zero-defect data cutovers, and secure integrations for enterprise compliance.

Professional Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Solutions Engineer (Freelance) *London, UK (remote)*

- Architected and shipped a multi-format AI ingestion pipeline orchestrating LLM tool use (Claude API, TypeScript) to extract data from customer brochures with automated structured parsing; successfully processed and drafted 900+ listings.
- Deployed customer-facing support AI agents operating against live database records, implementing confidence-scoring thresholds and automated escalation paths for human fallback.
- Directed core platform migration from a legacy stack to Next.js and Laravel (PostgreSQL), leading the database schema cutover and scaling the platform from 2,000 to 4,500+ active users with zero downtime.
- Partnered directly with external customer stakeholders to translate operational bottlenecks into production features, engineering bidirectional enterprise integrations with robust rate limits and webhook handling.

Get2Germany.com **Jan 2024 - May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany (remote)*

- Built automated data collection and validation pipelines using API integrations, streamlining core database synchronization.

Clubee.com **Sep 2023 - Aug 2024**
Developer & QA (Freelance) *Foetz, Luxembourg (remote)*

- Integrated core REST APIs across frontend modules and delivered administrative federation dashboards for international sports organizations, prioritizing robust validation and testing.

Selected Projects

- **LLM Document Parser**: Open-source engine demonstrating multi-format document parsing into strictly typed, validated JSON structures with automated error recovery.
- **Urlink** (Apr 2025 - Jul 2025): Project Manager & AI-Assisted Developer; collaborated with client leadership on technical discovery and delivered client-driven automations using Next.js and Supabase.

Education & Certifications

Ca' Foscari University of Venice Oct 2020 - Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Certifications: Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to Building AI Agents • Tray.AI Build Practitioner

Work authorization: Italian EU Long Term Residence Permit (unrestricted EU work rights, no visa sponsorship needed in Ireland).
Languages: English (fluent C2), Hindi (native), Italian (conversational).
