# Prabhavit Gupta

**Systems & Innovation Specialist | Emerging Capabilities & AI Solutions**

Venice, Italy (Available for Rome on-site / hybrid / travel) • +39 351 610 7807 • prabhavitg@gmail.com • linkedin.com/in/prabhavit

*Work Authorization: Italian EU Long-Term Residence Permit (No sponsorship required in Italy or EU)*

## Professional Summary

Systems and Innovation Specialist with over three years of hands-on experience bridging emerging software technologies, modular system architectures, and technical capability development across European platforms. Proven expertise in analyzing and implementing emerging technologies (LLM agents, RAG architectures, automated data workflows), building resilient API-driven integrations, and authoring technical specifications. Combines an engineering and automation track record with an academic foundation in Economics and Entrepreneurship from Ca' Foscari University, providing strong competency in business case formulation, investment governance, cost tracking, and executive reporting. Experienced in operational data analysis, rapid prototyping, and collaborating with cross-functional technical teams.

## Core Competencies & Capabilities

- **Emerging Technologies & AI:** AI Agents, RAG Architectures, LLM Pipeline Orchestration, Prompt Chaining, Claude Code, OpenAI API, Eden AI, Unstructured Data Parsing, Human-in-the-Loop Validation.
- **Systems Engineering & Architecture:** Modular Architecture, Open Architecture, Service-Oriented Architecture (SOA), REST API Integration, Cloud Systems (Supabase, Neon, GCP, Oracle Cloud), System Logic Modeling.
- **Capability Governance & Strategy:** Investment Tracking, Cost and Budget Monitoring, Technical Specifications Drafting, Business Case Preparation, Feasibility Analysis, Executive Reporting.
- **Development & Automation:** TypeScript, Next.js, Laravel (PHP), Python, n8n (Expert), SQL (PostgreSQL, MySQL), Playwright, Git, Postman, Web Scraping / Data Ingestion.
- **Validation & Quality Assurance:** Unit Testing, Test Suite Design (278 automated tests in production), Experimental Verification, Operational Data Collection, Incident Diagnosis.

## Professional Experience

**FlowSpace.co** — **London, UK (Remote)**
*Lead Developer & Solutions Architect* — *Mar 2024 – Present*

- Managed the architectural lifecycle of an operational platform, leading the migration from legacy low-code infrastructure to a modular, service-oriented Next.js and Laravel 11 stack supporting 4,500+ active users.
- Engineered an autonomous AI-driven listing and data extraction pipeline converting unstructured technical and commercial documents (PDFs, Excel sheets, emails) into verified database schemas.
- Implemented a bounded web crawler with file classification and 278 automated test suites, establishing human-in-the-loop review loops and diff tracking in PostgreSQL to continuously optimize pipeline accuracy.
- Integrated complex external operational APIs (OfficeRnD, Nexudus) for automated booking workflows, inventory synchronization, and CRM data enrichment.
- Collaborated across internal development teams, external agencies, and product stakeholders to author technical specifications, align feature roadmaps with business goals, and monitor delivery costs.

**Urlink** — **Barcelona, Spain (Remote)**
*Project Manager & AI-Assisted Developer* — *Apr 2025 – Jul 2025*

- Led technical requirement scoping, architectural definition, and rapid prototype validation for a multi-tenant web application using AI-assisted engineering tools, Supabase, and Next.js.
- Translated complex client requirements into structured functional specifications and modular components, accelerating deployment cycle from concept to validation.

**UltraStrategy.com** — **France (Remote)**

*Automation & Integration Developer* *Dec 2024 – May 2025*

- Designed and deployed automated data extraction pipelines using n8n and Eden AI, structuring unstructured documentation for distinct enterprise client profiles.
- Conducted feasibility assessments and data validation tests to support new capability integration into client platforms.

**Qomodo** **Milan, Italy (Remote)**
*AI & Low-Code Developer* *2024 – Jan 2025*

- Implemented centralized operational dashboards for multi-branch enterprise administration based on technical and UX specifications.
- Modeled database structures and access control logic to ensure reliable multi-unit reporting and performance tracking.

**Get2Germany.com** **Berlin, Germany (Remote)**
*Lead Developer & Automation Specialist* *Jan 2024 – May 2024*

- Built automated tracking and data analytics workflows integrating Google APIs to monitor system interactions and operational metrics.
- Developed AI-based matching tools and optimized relational database schemas to ensure low-latency query performance.

**Clubee.com** **Foetz, Luxembourg (Remote)**
*Systems Developer & Quality Assurance Specialist* *Sep 2023 – Aug 2024*

- Implemented full frontend API integrations with Clubee core services, verifying interoperability across federation management, e-commerce, and domain routing modules.
- Executed comprehensive quality assurance, unit testing, and edge-case verification using Postman, GitHub, and automated validation scripts.

**Tractionboard.co** **Utrecht, Netherlands (Remote)**
*Low-Code Developer (Internship)* *Aug 2023 – Oct 2023*

- Implemented OpenAI/ChatGPT API integrations, transactional email workflows (SendGrid), and functional responsive interfaces.

## Education

**Ca' Foscari University of Venice** **Venice, Italy**
*Bachelor's Degree in Philosophy, International Studies & Economics (Minor in Entrepreneurship)* *Oct 2020 – Jun 2024*

- Curriculum focused on quantitative economic analysis, business strategy, feasibility modeling, and decision logic.
- Provided foundational grounding in business case drafting, investment analysis, and translating market needs into operational solutions.

## Professional Certifications

- **Microsoft Copilot Studio Agent Academy**
- **Microsoft:** Introduction to Building AI Agents
- **Microsoft Power Automate**
- **Tray.AI Build Practitioner** (Sep 2024) & **Tray.AI Build Foundations**

## Languages & Mobility

- **Languages:** English (Professional / C1–C2), Italian (Beginner, 5+ years living in Italy, actively studying), Hindi (Native).
- **Work Authorization & Mobility:** Italian EU Long-Term Residence Permit (no sponsorship needed in Italy/EU). Fully available for hybrid/on-site presence in Rome (Via Tiburtina 1020) and short-to-medium term business travel.

*I hereby authorize the processing of my personal data contained in this CV in compliance with Italian Legislative Decree 196/2003 and EU GDPR 2016/679.*
