Work Authorization: European Long-Term Residence Permit – Full right to work in Poland / EU without visa sponsorship

Professional Summary

- **Full-Stack Software Engineer** with 3+ years of experience delivering scalable web applications, RESTful microservices, and automated workflows across European tech startups and fast-paced product environments.
- **Core Competencies in React.js and Python (FastAPI)**: Experienced in building modular frontend architectures, crafting responsive onboarding interfaces, engineering resilient backend API endpoints, and applying Domain-Driven Design (DDD) and SOLID principles to produce clean, testable, and maintainable code.
- **AI-Accelerated Engineering & Quality Assurance**: Daily practitioner of AI-assisted engineering tools (Claude Code) to accelerate development velocity; experienced in building automated regression testing suites with Playwright, performing systematic log analysis, debugging distributed workflows, and collaborating in international Agile/Scrum teams.

Technical Skills

- **Frontend Development:** React.js, TypeScript, JavaScript (ES6+), Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, State Management, UI/UX Implementation from Figma.
- **Backend & Architecture:** Python (FastAPI), RESTful API Design, Microservices, Domain-Driven Design (DDD), SOLID Principles, Clean Code Architecture, Webhooks, Data Ingestion & Validation.
- **Testing & Quality Assurance:** Automated Regression Testing, Playwright, Pytest, Unit Testing, API Testing (Postman), Manual Exploratory Testing, Test Automation Maintenance, Debugging.
- **AI-Assisted Development & Automation:** Claude Code, LLM API Integration (OpenAI, Anthropic), Agentic Workflows, n8n Workflow Automation, RAG Architectures, Automated Data Parsing.
- **DevOps, Cloud & Tools:** Git, GitHub, Google Cloud Platform (GCP fundamentals), Supabase, Netlify, Docker (basics), Log Analysis & Observability, Jira, ClickUp, Agile/Scrum Methodologies.

Professional Experience

FlowSpace.co — London, UK (Remote)
Lead Full Stack Developer (Full-time Contract) — *Mar 2024 – Present*

- Spearheaded frontend application modernization, leading the migration of core user onboarding and workspace discovery flows into a modular **React.js** and **Next.js** architecture.
- Developed and maintained **Python** backend microservices and **FastAPI** endpoints to automate workspace booking synchronization with external APIs (Office RnD, Nexudus).
- Applied Domain-Driven Design (DDD) and SOLID practices to decouple business logic from external service layers, ensuring maintainable, testable, and extensible code.
- Architected automated end-to-end regression testing suites using **Playwright**, automating critical user-journey test cases and reducing manual regression verification time by over 50%.
- Leveraged AI development assistants (**Claude Code**) and custom parsing scripts to accelerate feature implementation, automate data extraction, and increase platform listings.
- Conducted hands-on troubleshooting and log analysis to isolate and resolve edge cases across frontend state handling, webhooks, and third-party API communications.
- Contributed directly to scaling platform user engagement from 2,000 to over 4,500+ active users through improved registration flows and reduced friction.

Urlink — Barcelona, Spain (Remote)
AI-Assisted Full Stack Developer & Project Manager (Freelance) — *Apr 2025 – Jul 2025*

- Engineered responsive web interfaces using **React.js**, **TypeScript**, and **Supabase**, translating client product specifications and design mockups into reusable UI components.
- Leveraged AI-first development workflows (Claude Code, bolt.new) to iterate rapidly on feature prototypes and deploy production-ready client solutions.
- Built automated backend logic, API webhooks, and client-side data validation pipelines, ensuring robust error handling and adherence to clean code standards.
- Maintained continuous integration and deployment workflows via GitHub and Netlify, adhering to strict Git version control and branching practices.

UltraStrategy.com — Paris, France (Remote)
Software & Automation Engineer (Collaborator) — *Dec 2024 – May 2025*

- Developed document parsing and transformation pipelines utilizing **Python**, **FastAPI** microservices, and **n8n** workflow orchestration integrated with external AI models.

- Designed robust data models and REST API interfaces supporting multi-tenant candidate profile ingestion and analysis.
- Built automated verification tests and performed structured manual testing to validate edge-case handling across complex JSON payloads.

Clubee.com Foetz, Luxembourg (Remote)
Software Developer & Quality Assurance (Full-time Contract) *Sep 2023 – Aug 2024*

- Integrated Clubee REST APIs across web frontends for sports club management, online shops, and federation dashboards.
- Authored unit tests and maintained comprehensive QA procedures using Postman, verifying data schemas and frontend interaction flows.
- Investigated cross-browser inconsistencies, performed bug triage, and authored detailed technical documentation for newly released API endpoints.

Get2Germany.com Berlin, Germany (Remote)
Full Stack Developer & Automation Specialist (Part-time) *Jan 2024 – May 2024*

- Built user discovery modules and database optimizations for academic and employment placement pipelines.
- Integrated Google APIs for tracking and analytics; diagnosed platform latency through systematic log inspection and query profiling.

Education

Ca' Foscari University of Venice Venice, Italy
Bachelor's Degree in Philosophy, International Studies & Economics (Minor in Entrepreneurship) *Oct 2020 – Jun 2024*

Certifications & Languages

- **Certifications:** Microsoft Copilot Studio Agent Academy · Microsoft: Building AI Agents · Microsoft Power Automate · Tray.AI Build Practitioner & Foundations.
- **Languages:** English (Fluent, Professional C2), Hindi (Native), Italian (Elementary, actively studying).
- **Work Authorization:** European Long-Term Residence Permit (Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo) – legally permitted to work anywhere in the European Union (including Poland) without sponsorship.
