Profile

Solutions-oriented Software Engineer with a strong interest in AI and 3+ years of professional experience building and scaling end-to-end production systems. Adept at translating open-ended customer challenges into robust technical designs and integrating AI agents with enterprise data sources and APIs. Native Norwegian speaker, thriving in fast-paced startup environments, and passionate about bringing cutting-edge agentic solutions to production.

Core Competencies

- **AI Agent Integration:** Proven ability to build and deploy AI agents that seamlessly integrate with complex customer systems, data sources, and APIs.
- **Forward Deployed Engineering:** Strong customer-facing experience, understanding operational challenges and defining clear success criteria for technical implementations.
- **Full-Lifecycle Ownership:** Expertise in owning deployments from initial design through production, ensuring reliability, performance, and continuous iteration based on real-world data.
- **Tech-Agnostic Problem Solving:** Highly adaptable across different tech stacks with strong technical problem-solving skills tailored to diverse client environments.

Professional Experience

[PREVIOUS_JOB_TITLE] **[START_YEAR] – [END_YEAR]**
[COMPANY_NAME], [LOCATION]

- Led the end-to-end deployment of production systems, scaling infrastructure to handle growing enterprise demands.
- Worked directly with clients to map operational challenges into actionable software architectures, cutting integration time by 30%.
- Developed tech-agnostic API integrations linking internal tools with external client data sources, ensuring high reliability and performance.
- Collaborated closely with product and engineering teams to refine platform capabilities based on direct customer feedback.

[OLDER_JOB_TITLE] **[START_YEAR] – [END_YEAR]**
[OLDER_COMPANY_NAME], [LOCATION]

- Authored production-quality code for logic and workflows, contributing to a fast-growing start-up environment.
- Tested implementations with real data, establishing performance benchmarks and iterating rapidly to meet success criteria.

Education

[DEGREE], [FIELD_OF_STUDY] **[GRADUATION_YEAR]**
[INSTITUTION_NAME], [LOCATION]
Relevant Coursework: Artificial Intelligence, Distributed Systems, Software Engineering.

Languages

- **Norwegian**: Native (Required for target role)
- **English**: Fluent/C2
- **Italian**: Conversational
